Meeting Agenda

I Call the meeting to order (report shareholdings of the attendances)

II Chairman remarks(omitted)

III Company Reports

Motion 1: 2021 Business Report.

Explanation: Please refer to Attachment 1 for the Company's 2021 business report.

Summary of the comment made by Shareholder Account No. #83147644:

Regarding the solicitation of Horizon Securities, the mandating shareholders are Kao Chuan Inv. Co., Ltd., Shiow-Ling Kao, Po-Yu Hou, and Po-Ming Hou. Horizon Securities stated "None" in the "stakeholder" column of the solicitation form; however, the mandating shareholders are a candidate in the current election. In the proposal of "lifting the non-compete clause against the directors," it looks like is subject to the said proposal, and indeed a "stakeholder." Therefore, according to the "Rules of Procedure for Shareholders Meetings by Public Companies," the proxy solicitation with false statement found must be excluded from the calculation of shares.

The Chairman asked the Secretary of the Board to reply:

Horizon Securities is a solicitor of ours while Kao Chuan Inv. Co., Ltd., Shiow-Ling Kao, Po-Yu Hou, and Po-Ming Hou are the mandating shareholders without stakes.

Summary of the comment made by Shareholder Account No. #83147644:

There could be no way to resolve the doubts effectively on this regard; however, I raise my concern just so to protect my own interest. Thank you!

Motion 2: Audit Committee's Review Report on the 2021 Financial Statements.

Explanation: This proposal is the presentation by the Board of Directors of the Company's 2021 Business Report, Financial Statements, and the Profit Allocation Proposal. Of these items, the Financial Statements have been audited by external auditors, and an opinion and report have been issued on the Financial Statements. The aforementioned proposal regarding Business Report(Attachment 1), Financial Statements(Attachment 2, Attachment 3), and the Profit Allocation Proposal(Attachment 4) have been reviewed by the Audit Committee with the Audit Committee's Review Report(Attachment 5).

Summary of the comment made by Shareholder Account No. #83157084:

1. The current revenue has gone up by roughly 1.7%, but the net income has declined by 7.7%. I would like to ask the Chairman why the revenue increased and the net income decreased? It means that more money is earned, but less money for the shareholders.

- 2. I would like to ask about the proposals of <u>eslite</u>. According to <u>eslite</u>, a proposal was made two years ago with very favorable terms, is that true? Will the Chairman tell us what is going on?
- 3. It was reported that <u>Uni-President Department Store</u> intended to take over. Are the terms offered by <u>Uni-President Department Store</u> better than the terms offered by <u>eslite</u>? The Chairman said on Friday, "It is not yet the time. According to the contract, the lease can be renewed 6 months in advance." However, for the shareholders' rights and interests, the annual rent is NT\$450 million, so, if the decision is not made until next year, for such a large amount of rent expense, if we miss that window, we are talking about a monthly loss of NT\$30-40 million, which is a huge amount of money to a shareholder like us who can never make that kind of money in a life time. What will you say about such huge loss occurred to the company due to missing the window?
- 4.Is there any other lessee in line? Which leasing candidate offers better terms? Why can't this matter be decided until June next year? Wouldn't that put the interests of the shareholders in jeopardy?
 - # The chairman has already replied to the aforesaid questions of the shareholders, which are summarized as follows. However, The content of the replies during the meeting is subject to the meeting video.
 - 1. It had been hard for the company in the last year. Due to the prevalence of COVID-19, we had tried to maintain our market positioning in order to maintain a basic economic scale for the overall operation. Therefore, we had strived to increase sales revenue, which resulted in inconsistency between revenue and profit.
 - 2. In regard to the proposal of <u>eslite</u>, we have it handled in accordance with the lawful procedures already. Shareholders can rest assured that we have always made our business decisions with the best interests of our shareholders in mind. Thank you!

Summary of the comment made by Shareholder Account No. #83157084:

- 1. Is there any other potential lessee offering better terms?
- 2. Does <u>Uni-President Department Store</u> intend to lease?
- 3. When will the timetable in your mind be realized? If it involves business secrets, of course, we as the shareholders of the company will not ask, but please answer yes or no for our knowledge. We wish for you to tell us the answer in your mind that does not involve any business secret. I believe that you have the best interests of shareholders in mind, but now some of us are questioning whether you can give

shareholders an explanation as early as possible?

The chairman has already replied to the aforesaid questions of the shareholders, which is summarized as follows. However, the replies during the proceedings are subject to the meeting video.

In regard to this question, we would like to base on the spirit of the contract, which requires us to reply before June 30 next year."

Summary of the comment made by Shareholder Account No. #83147644:

Since Uni-President Enterprises Corp. needs to protect the best interests of its shareholders, is it possible to go for a public price comparison or bidding so it is an open and transparent transaction to the shareholders. Chairman, can we hear your words on this?

The chairman has already replied to the aforesaid questions of the shareholders; therefore, the content of his reply - omitted. The content of the replies during the meeting is subject to the meeting video.

The speech of shareholder #81999570 is not directly related to the company, the content of such speech will not be recorded.

Remarks:

The content of this shareholder's speech is not directly related to the company, and is irrelevant to the current proposal "The 2021 Audit Committee Review Report," therefore, the content of such speech will not be recorded.

Motion 3: Report on the payment of employee compensation and director remuneration of 2021.

- 1. It is compliant with the Orders of Ministry of Economics Jingshang zhi No. 10402413890 issued on June 11, 2015 and Jingshang zhi No. 10402427800 issued on October 15, 2015.
- 2. According to Paragraph 1 of Article 30 of the Company's Articles of Incorporation, where the Company has profit at the end of any fiscal year, it shall contribute no less than 2% of the profit as the remuneration to

employees and no more than 2% of the profit as the remuneration to directors. Therefore, the Company hereby allocates its profit for 2021 in the following manner, based on the Articles of Incorporation and by taking the operating performance into account:

- (1) 7.43% as the remuneration to employees, namely NT\$1,684,246,579.
- (2) 1.44% as the remuneration to directors, namely NT\$325,653,639.
- 3. The remuneration to employees and directors is allocated in cash uniformly.

Summary of the comment made by Shareholder Account No. #83157084:

- 1. The EPS of Uni-President Enterprises Corp. had dropped from NT\$7.01 to NT\$3.5 in $2017 \sim 2021$, that is, the EPS in 2021 was reduced by 50%. It looks like its EPS is declining year after year.
- 2. If <u>Uni-President Department Store</u> is the lessee in the future, which is a related party transaction, does the board of directors of Uni-President Enterprises Corp. have any procedural requirements for a related party transaction? Would you please elaborate? How much information do other directors and independent directors have on this transaction? What is their judgment? If the lease terms worse than <u>eslite</u>'s in the future, of course, we will file a report, as shareholders, we will watch the development of the transaction closely. If it is a related party transaction, what is your review mechanism for it? Would you please elaborate? Thank you!
 - # The chairman has already replied to the aforesaid questions of the shareholders, which is summarized as follows. However, the replies during the proceedings are subject to the meeting video.
 - 1. The EPS NT\$7.1 was resulted from the sale of Shanghai Starbucks assets in that year; otherwise, the company's operations are relatively stable.
 - 2. It is indeed the rights and interests of shareholders; therefore, why would you worry that we would operate not in accordance with normal meeting agenda and relevant regulations? Our operations are under the supervision of the board of directors and the independent directors.

Motion 4: Total endorsements/guarantees provided by the Company to investees.

Explanation:

1. On the grounds of the Company's "Operational Procedures for Endorsements and Guarantees".

Article 5: <Limit in endorsements/guarantees >

The aggregate total of endorsements/guarantees conducted by the Company

- shall be 100% of the Company's net worth. The maximum limit of endorsement conducted by the Company toward a single enterprise shall be 50% of the Company's net worth. Reported the progress to the shareholders meeting for reference and recording.
- 2. The Company renders endorsements/guarantees exactly in accordance with the provisions set forth under Paragraph I of Descriptions. As of December 31, 2021, the balance of endorsements/guarantees at the end of the term amounted to NT\$31.078 billion. The aggregate total actually disbursed amounted to NT\$1.162 billion.

Unit: Thousand NT\$

V Discussion

Motion 1: Amendment to the Company's Articles of Incorporation. (Proposed by the Board)

- 1. Amendments are to be made in accordance with the Jin-Guan-Zheng-Fa-Zi No. 1090150022 Letter and No. 10901500221 Letter dated March 31, 2021 by the Financial Supervisory Commission and Article 237 of the Company Act. It is proposed to have Article 31 of the Company's "Articles of Incorporation" amended with the provision of the "legal reserve" for an amount equivalent to the paid-in capital added, the "special reserve" appropriation from the earnings period specified, the wordings in the amended articles, and the amendments date specified in Article 34 so to make the "Articles of Incorporation" more complete.
- 2. According to the corporate governance 3.0 sustainable development blueprint plan, starting from the year of 2024, the TWSE/TPEx listed

companies with a paid-in capital of NT\$10 billion or more are required to have had at least one-third of the seats of independent directors (which can be postponed till the end of the current term).

It is stipulated in the Company's Articles of Incorporation to have 13 directors (including 10 directors and 3 independent directors) appointed. A certain number of independent directors is to be appointed additionally in corresponding with the corporate governance 3.0 - sustainable development blueprint plan. The quorum of board directors in the Company's "Articles of Incorporation" is amended to 11~15 directors (including independent directors) for a flexible arrangement in the future in response to the requirements of the competent authorities.

3. Please refer to Attachment 6 of Contrast Table of the article of "Articles of Incorporation", Appendix 2 on page 70~75 of the Meeting Handbook for the original clauses.

Resolution:

Voting Result-

Shares represented at the time of voting : 4,769,056,348

Voting Results*		% of the total represented share present
Votes in favor	4,216,213,614 votes (2,755,267,421 votes)	88.40%

VI Election Matters

Motion 1: Reelection of the Company's Directors and Independent Directors. (Proposed by the Board)

- 1. The term of the company's 18th Boards of Directors and Independent Directors will be expired on June 17, 2022. The election of the company's 19th Board of Directors and Independent Directors will be held on May 31, 2022, Shareholders' Meeting.
- 2. According to Article 16 of the Company's incumbent "Articles of Incorporation", 13 directors (10 common directors and 3 independent directors) are elected to organize the board of directors with the candidate nomination system adopted. Shareholders in the shareholder' meeting are to elect directors from the candidate list in accordance with the cumulative voting system stipulated in Article 198 of the Company Act. The new directors will take the office after being elected at the general shareholder meeting this year. The original directors and independent directors will be dismissed at the same time. The tenure of the 19th term of directors and independent directors is for a 3-year term from May 31, 2022 to May 30, 2025.
- 3. According to Article 17 of the Company's incumbent "Articles of Incorporation", all independent directors shall form the body of the Audit

- Committee. Therefore, the 4nd Audit Committee shall be set up and take effective when the new independent directors are elected.
- 4. The list of candidates for the term of the company's 19th Boards of Directors and Independent Directors, which have been reviewed and approved by resolution of the 23th meeting of the 18th term of Board of Directors on April 19, 2022, shall be presented to the general shareholders' meeting of 2022 for election. Editorial board, English translation of the interpretation by the Chief Justice of the Judicial Yuan Lecture: Talent Development Institute for Local Government, DGPA, Executive Yuan Commissioner, the Securities Listing Review Committee of Taipei Exchange

Summary of the comment made by Shareholder Account No. #83157084:

You, newly appointed directors and independent directors, are urged to strictly control the leasing proposal of <u>eslite</u>. We would like to ask the convener of the Audit Committee to inform the newly elected independent directors on our behalf to watch the transaction closely for minority shareholders and to protect the best interests of the minority shareholders. You must review all business conditions and uphold fair competition, and do not let a leasing candidate with inferior business conditions become the new lessee since it has everything to do with every hard-earned penny of every shareholder. We remind all independent directors not to ignore our urge, you must monitor directors and the board of directors, otherwise, we as the minority shareholders will monitor you. We would like to say it again that if the future lease terms are relatively less beneficial, I will personally file a special report on the independent director for a breach of trust. We will also ask the Securities and Futures Investors Protection Center to file a lawsuit for the dismissal of the directors. Finally, I would like to ask the chairman to consider the position of the minority shareholders and not to harm the minority shareholders for other considerations, thank you.

#Response of The meeting chair:

Thanks for the opinions of this shareholder. Thank you!

VII Other Matters

Motion 1: Deletion of the non-competition promise ban imposed upon the Company's directors and independent directors according to the Article 209 of Company Act. (Proposed by the Board)

Explanation:

- 1. According to the Article 209 of Company Act, any director acting for himself/herself, or for any other person within the scope of the Company business, should provide the shareholders' meeting with explanations about any important matters of such acts and should acquire the approval of the shareholders' meeting.
- 2. It is proposed to seek approval in the general shareholders' meeting allowing directors and independent directors elected in the general shareholders' meeting to engage in acts of competition under Article 209 of Company Act from the date of the term of the directors and independent directors, thus be released from the competition restriction (provided that there is no damage to the interests of the Company).
- 3. Details of the duties subject to releasing the Cadidate of Directors and Independent Directors from non-competition, please refer to Attachment 8.

VIII Questions and Motions

Summary of the comment made by Shareholder Account No. #83157084:

I would like to urge the newly elected directors again, please protect the rights and interests of the shareholders. Please have the lease transaction arranged open and transparent for the bested interests and rights of the shareholders. Thank you!

#Response of The meeting chair:

Thanks for the opinions of this shareholder. Thank you!

Summary of the comment made by Shareholder Account No. #81999570

The speech of shareholder #81999570 is irrelevant with the company; also, a provisional motion has not been formally submitted; therefore, the speech of such shareholder will not be recorded.

Chairman: Is there any shareholder like to comment? If not, the company's 2022 regular shareholders' meeting is hereby "adjourned".

IX Adjournment: May 31, 2022 at 11:18 am.

Remarks:

According to the provision of Article 183, paragraph 4 of the Company Act regarding the minutes of the regular shareholders' meeting:

The minutes of the meetings of shareholders shall record the date and place of the meeting, the name of the chairperson, the method of adopting resolutions, and a summary of the essential points of the proceedings, and the results of the meeting. The minutes shall be kept persistently throughout the life time of the company.

#The AMG minutes only outline the proposals discussed and summarize the comments of shareholders with different opinions. The proceedings, procedures, and shareholder comments are subject to the meeting video.

Uni-President Enterprises Corp. 2021 Business Report

The Company's operating income amounted to NT\$42.6 billion in 2021, representing an increase of 1.8% from the year before, a net income amounted to NT\$19.8 billion, representing a decline of 7.7% from the year before, and a consolidated operating income of NT\$473.5 billion through the efforts of all our staff and the support of consumers. In 2022, Uni-President will carry through the business mindset of "honesty, diligence, innovation, and progression", and hold onto the business guidance to catch trends, find ways, and refine skills, continuously strengthening the market status and competitiveness to create a promising future.

Protecting food safety without compromise

"Food safety" is the most concerned topic for the public and a critical rule that cannot be compromised. In addition to establishing a national-level "Food Safety Center Building", we pay close attention to and grasp policies and regulations that may affect our operations, strengthen risk control in the value chain, and closely control our suppliers, raw materials, processes, and products. On the topic of food safety, we have been overcoming fears. "Protecting food safety" has become a part of the daily job and attitude. In the future, we will keep investing resources, improving our expertise, protecting, and upgrading food safety at a national level.

Construct the "Asian Logistic Life Platform" to lay the foundation for the Group's sustainability

Population structure and technological evolution are changing rapidly. Technology development drives types of life and consumption to transform. To look out to the future, other than following society trends, consumer expectations, food safety laws and regulations to make self-revolution on the basis of finding ways, Uni-President will more actively link up the group's platforms and resources to actively discover and satisfy more consumer needs in order to bring out a group synergy and maximize the value altogether.

Apply the "One Core + Four Focuses" business strategy: Based on the "Life Brand" as the strategic core, with the four focuses, namely "Manufacturing + R&D," "Trade + Circulation," "Experience + Retail," and "Alliance + M&A," we construct the Asian Logistic Life Platform to work on the long-term business goals, i.e. better services for life, improvement of life quality, and creation of desired economic value.

Following through the business principle of "catching trends, finding ways, and refining skills" to achieve consistent improvement

Upholding the corporate policy for "adjustment on structure, stable growth and value marketing," enhancing internal management and optimizing the constitution internally, developing markets externally, making good use of economic scale, regional expansion, managerial skills, and marketing strength and maintaining competitiveness. The key points for management include:

(1)Enhancement of brand value:

Focus on sprouting leading brands and major SKU, solidify the bonds with consumers through branding, pursue more excellent product strength through R&D of technology, provide consumers with a happy and relaxing shopping experience, expand the market share and build the Company's position in the industry.

(2)Upgrading of profitability:

Refine basic skills, improve the utilization of production lines, and optimize production efficiency. Continue to strengthen the added value of products and adjust the product map and marketing configuration. Examine whether the expense input efficiency continues to improve or not through management policies and tools.

(3)Control over market mechanism:

Strictly execute the actual sales policy and freshness management, keep controlling the market pricing ability, maintain the nominal price stability, and strengthen the control and sensitivity toward stakeholders.

(4)Construction of the platform economics:

Sprout the tangible channels, construct e-commerce platforms, and make good use of the Group's logistic resources to provide excellent shopping experience and complete shopping channels; integrate online and offline information, introduce members to engage in the business; shorten the gap with consumers and exercise the value of life industry by the development of platform economics through digital innovation.

(5) Participation in social responsibility:

Value corporate governance, food safety, employees' benefit, labor safety and environmental protection, and social participation

Business Outlook for 2022

In 2021, the market value of Uni-President was more than NT\$380 billion, staying in the Top 20 among the enterprises in Taiwan. Uni-President exists for the society. In the future, we will keep internalizing our past expertise in manufacturing and dedicated services until they attain a more in-depth style of literacy and life experience. Upholding "I am Uni-President and also a life" as the core philosophy and "Contribution to Social Convenience" as the code of conduct, we aim to reach the goal for life industry step by step, and communicate to the society an ethical philosophy, a lifestyle, a sense of happiness, and a set of historical culture transfers.

Extraordinariness is not from our behaviors or abilities but decided by good habits. The Company will adhere to the policy for "Practical and Diligent, Focus on Management" and an attitude "avoiding being impetuous" and using the best efforts to achieve the domestic market sales target in 2022 to continue creating better investment income for all shareholders. Please continue to guide and support us. Thank you!

Chairman: Chih-Hsien Lo President: Jau-Kai Hwang \ Ching-Tien Lee Chief Accountant: Tsung-Ping Wu

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Uni-President Enterprises Corp.

Opinion

We have audited the accompanying parent company only balance sheets of Uni-President Enterprises Corp. (the "Company") as of December 31, 2021 and 2020, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the reports of the other auditors, as described in the other matter section of our report, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China ("ROC GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Parent Company Only Financial Statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the reports of the other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2021 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's 2021 parent company only financial statements are stated as follows:

Evaluation of the ending balance of investments accounted for under the equity method

Please refer to Notes 4(13) and 6(6) for the accounting policy and the details of investments accounted for using the equity method relating to this key audit matter.

Cayman President Holdings Ltd. and President Chain Store Corp., the Company's subsidiaries with the related ending balance of investments accounted for under the equity method of \$70,405,876 thousands and \$14,021,049 thousands, both constituting 43% of the Company's total assets, respectively, were considered significant to the parent company only financial statements. Accordingly, evaluation of the ending balances

of these investments accounted for under the equity method has been identified as one of the most significant matters in our audit, hence, the key audit matters reported in the financial statements of these subsidiaries are also included as key audit matters in our audit of the Company's parent company only financial statements as follows:

1. Cayman President Holdings Ltd. and its subsidiaries—Operating revenue—Sales of goods in Mainland China

Description

Cayman President Holdings Ltd. and its subsidiaries are engaged in a large volume of revenue transactions generated from sales to a large number of customers, including direct customers and distributors in many different areas in Mainland China. As such, it needs more time for good transportation and customer reception, which involves complicated judgement in determining the timing of transferring the rights and obligations and risks and awards of goods to customers. As a result, it has been identified as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We understood, evaluated and validated management's controls in respect of the sales transactions. In addition, we understood and tested the general control environment of the information technology systems and the automatic controls that were related to sales of goods and revenue recognition.
- (2) We conducted testing of revenue records using sampling techniques, by examining the relevant supporting documents including customer orders, goods delivery notes and customer's receipt notes. In addition, we confirmed customers' balances of accounts receivable and amounts of transactions on a sampling basis, by considering the nature of transactions and characteristics of those customers.
- (3) We tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognized revenue with the goods delivery notes and customers' receipt notes, to assess whether revenue was recognized in the appropriate reporting periods.
- 2. President Chain Store Corp. and its subsidiaries—Completeness and accuracy of retail sales revenue

Description

Retail sales revenue of President Chain Store Corp. and its subsidiaries is recorded based on the point-of-sale (POS) terminals, which collect the information of item names of merchandise, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (which contains information such as item names of merchandise, cost of purchase, retail price, combination sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the Enterprise Resource Planning ("ERP") system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report, which summarizes amounts of sales and methods of collections (including cash, gift certificates, credit cards and electronic payment devices, etc.) and cash from daily sales is deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue through these systems is important with regard to the completeness and accuracy of the retail sales revenue figures, and thus has been identified as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We inspected and checked whether additions and changes to the merchandise master file data had been properly approved and supported by related documents;
- (2) We inspected and checked whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
- (3) We inspected and checked whether merchandise master file data had been periodically transferred to POS terminals in stores;
- (4) We inspected and checked whether sales information in POS terminals had been periodically and completely transferred to the ERP system and sales revenue journal entries were automatically generated;
- (5) We inspected manual sales revenue journal entries and relevant documents;
- (6) We inspected daily cash reports and related documents;
- (7) We inspected cash deposit amounts recorded in daily cash reports and agreed them to bank remittance amounts.
- 3. President Chain Store Corp. and its subsidiaries Cost-to-retail ratio of retail inventory method

Description

As the retailing business of President Chain Store Corp. and its subsidiarie involves various kinds of merchandise, the retail inventory method is used to estimate the ending balance of inventory and the cost of goods sold. The retail inventory method applies a ratio of costs over retail prices of goods purchased (known as cost-to-retail ratio) to come out with an estimate of the ending balance of inventory and the cost of goods sold. The determination of the cost-to-retail ratio relies highly on cost and retail price information recorded in the accounting system, and has thus been identified as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We interviewed the management to understand the calculation process of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
- (2) We inspected and checked whether additions and changes to the merchandise master file data (including item names of merchandise, cost of inventory, retail price, combination sales promotions, etc.) had been properly approved and the data had been correctly entered in the merchandise master file;
- (3) We inspected and checked whether costs and retail prices of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
- (4) We inspected and checked whether the POS records for costs and retail prices of inventory purchased were periodically and completely transferred to the ERP system and that the records could not be changed manually.
- (5) We recalculated the cost-to-retail ratio to verify its accuracy.

Other matter –Report of other auditors

We did not audit the financial statements of certain investments accounted for under the equity method that are included in the parent company only financial statements. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the parent company only financial statements and the information disclosed in Note 13 relative to these investments, is based solely on the audit reports of other auditors. The balance of these

investments accounted for under equity method amounted to \$4,054,627 thousands and \$8,032,737 thousands, constituting 2.06% and 4.27% of the related totals as of December 31, 2021 and 2020, respectively, and share of profit or loss amounted to \$634,785 thousands and \$1,326,585 thousands, constituting 3.47% and 6.48% of the related totals for the years then ended, respectively.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based

on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Uni-President Enterprises Corp.

Opinion

We have audited the accompanying consolidated balance sheets of Uni-President Enterprises Corp. and its subsidiaries (the "Group") as of December 31, 2021 and 2020, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and reports of other auditors (please refer to *Other Matter* section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the *Auditors'* responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and reports of other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2021 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2021 consolidated financial statements are stated as follows:

Operating revenue - Sales of goods in Mainland China

Description

Please refer to Notes 4(35) and 6(26) to the consolidated financial statements for the accounting policy on operating revenue and the details of revenue items relating to this key audit matter.

The Group is engaged in large volume of revenue transactions generated from sales to a large number of customers, including direct customers and distributors in many different areas in Mainland China. As such, it needs more time for delivery and customer acceptance, which involves complicated judgements in determing the timing of the transfer of the rights and obligations and risks and rewards of ownership of goods to customers. As a result, we considered the sales of goods in Mainland China as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- 1. We understood, evaluated and validated management's controls in respect of the Group's sales transactions. In addition, we understood and tested the general control environment of the Group's information technology systems and the automatic controls related to sales of goods and revenue recognition.
- 2. We conducted testing of revenue records using sampling techniques, by examining the relevant supporting documents including customer orders, goods delivery notes and customer's receipt notes. In addition, we confirmed customers' balances of accounts receivable and amounts of transactions on a sampling basis, by considering the nature of transactions and characteristics of those customers.
- 3. We tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognized revenue with the goods delivery notes and customers' receipt notes, to assess whether revenue was recognized in the appropriate reporting periods.

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(35) and 6(26) to the consolidated financial statements for the accounting policy on operating revenue and the details of revenue items relating to this key audit matter.

Retail sales revenue is recorded based on the point-of-sale (POS) terminals, which collect the information of item names of merchandise, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (which contains information such as item names of merchandise, cost of purchase, retail price, combination sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the Enterprise Resource Planning ("ERP") system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report, which summarizes amounts of sales and methods of collections (including cash, gift certificates, credit cards and electronic payment devices, etc.) and cash from daily sales is deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue through these systems is important with regard to the completeness and accuracy of the retail sales revenue figures, and has therefore been identified as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- 1. We inspected and checked whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
- 2. We inspected and checked whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
- 3. We inspected and checked whether merchandise master file data had been periodically transferred to POS terminals in stores:
- 4. We inspected and checked whether sales information in POS terminals had been completely transferred to the ERP system periodically and sales revenue journal entries were automatically generated;
- 5. We inspected manual sales revenue journal entries and relevant documents;
- 6. We inspected daily cash reports and relevant documents;
- 7. We inspected cash deposit amounts recorded in daily cash reports and agreed them to bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(14) and 6(6) to the consolidated financial statements for the accounting policy on inventories and cost of goods sold and the details of inventory items relating to this key audit matter. As retailing business involves various kinds of merchandise, the retail inventory method is used to estimate the ending balance of inventory and the cost of goods sold. The retail inventory method applies a ratio of costs over retail prices of goods purchased (known as cost-to-retail ratio) to come out with an estimate of the ending balance of inventory and the cost of goods sold. The determination of the cost-to retail ratio relies highly on costs and retail prices information recorded in the accounting system and has therefore been identified as one of the key audit matters of our annual audit for 2021.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- 1. We interviewed the management to understand the calculation process of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
- 2. We inspected and checked whether additions and changes to the merchandise master file data (including item names of merchandise, cost of inventory, retail price, combination sales promotions,

- etc.) had been properly approved and the data had been correctly entered in the merchandise master file;
- 3. We inspected and checked whether costs and retail prices of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
- 4. We inspected and checked whether the POS records for costs and retail prices of inventory purchased were periodically and completely transferred to the ERP system and that the records could not be changed manually.
- 5. We recalculated the cost-to-retail ratio to verify its accuracy.

Other matter – Reference to the audits of other auditors

We did not audit the financial statements of certain subsidiaries and investments accounted for under the equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in the financial statements and the information disclosed in Note 13 relative to these subsidiaries and associates, is based solely on the reports of the other auditors. Total assets of these subsidiaries and investments amounted to \$22,083,486 thousands and \$33,845,765 thousands, representing 4.30% and 6.83% of the related consolidated totals as of December 31, 2021 and 2020, respectively, and total operating revenues amounted to \$29,340,754 thousands and \$29,362,473 thousands, constituting 6.20% and 6.56% of the related consolidated totals for the years then ended, respectively. Related share of profit of associates and joint ventures accounted for under the equity method in the aforementioned companies amounted to \$578,127 thousands and \$1,427,675 thousands, constituting 2.13% and 4.70% of the consolidated total comprehensive income for the years then ended, respectively.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Uni-President Enterprises Corp. as at and for the years ended December 31, 2021 and 2020.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and

using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free for material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

by the Company and the Company's capital needs with consideration of the indispensability of taking the earnings to back up the capital needs to resolve the amount of earnings to be reserved or to be allocated and the amounts of bonus to be allocated to shareholders in cash. The Company's earnings, if any, of the year shall be applied to pay the business income tax, make up for the cumulative losses of previous years, and the remaining amount, if any, shall be used for an appropriation of 10% legal reserve, unless the legal reserve is already equal to the paid-in capital. The accumulated distributable earnings include the appropriated or reversed special reserve plus the accumulated unappropriated earnings of previous years. The shareholder dividend shall be for an amount equivalent to 50% to 100% of the accumulated distributable earnings. The cash dividend ratio shall not be less than 30% of the total dividend distribution of the year, which is to be proposed by the board of directors and resolved in the shareholder meeting before implementation. When the Company appropriates special reserve, for the net amount of the previous accumulation debited to other equity and the net increase in the fair value of the investment real property, a special reserve for the same amount should be appropriated earnings of the previous period. If there is an insufficient amount for appropriated earnings for the previous period. If there is an insufficient amount for appropriated earnings for appropriated earnings for appropriation.	by the Company and the Company's capital needs with consideration of the indispensability of taking the earnings to back up the capital needs to resolve the amount of earnings to be reserved or to be allocated and the amounts of bonus to be allocated to shareholders in cash. From the profit earned by the Company as shown in the financial statements, the sum to pay all income tax and make up previous loss, if any, shall be first withheld, then 10% shall be reserved as legal reserve, then the special reserve to be duly allocated or restored. The balance shall be the sum allocable in the present term and after being added with the undistributed retained earnings accumulated in the preceding year. The bonus to shareholders shall be 50%~100% of the accumulated allocable earnings. The cash dividend shall not be less than the minimum of 30% of the total amount of dividend allocable in the year.	"special reserve" earnings periods are added in accordance with the Jin-Guan- Zheng-Fa-Zi No.1090150022 Letter and No. 10901500221 Letter dated March 31, 2021 and Article 237 of the Company Act. 2. required transaction in any other product may only be carried out following approval by resolution of the board of directors.

- 2.Operational or Hedging Strategies: Transactions in derivative products carried out by the Company are divided into transactions for hedging purpose and transactions that are not for hedging purpose (i.e., for transaction purpose). The strategy shall be to focus on the main purpose of hedging. The main selection of transaction products shall be for avoiding the risk of foreign exchange income, expense, asset or indebtedness incurred from the operation of the Company's business. In case of any change of objective environment, "non-hedging transactions" in derivative products may be engaged at appropriate timing in the market in order to increase additional non-operational income or reduce non-operational loss. Further, to the extent possible, the selected transaction counterparties shall be financial institutions that have business dealings with the Company in order to avoid credit risk. The type of transaction shall be clearly defined hedging transaction or financial operation in pursuit of investment return prior to the transaction as the basis for accounting.
- 3. Transaction Amount Limits:
 - (1)Hedging Transactions: The maximum hedging limit shall be the net positions of foreign exchange or debt (including net positions expected to incur in the future) after consolidation of assets and debt.
 - (2)Non-Hedging Transactions: To be determined based on the market trend and company business requirement at the time of transaction. The transaction staff shall provide analysis and evaluation report before individual execution, specifying the market trend and risk analysis and providing suggested operational method and
