## REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Stockholders of Uni-President Enterprises Corp.

### ***Opinion***

We have audited the accompanying parent company only balance sheets of Uni-President Enterprises Corp.(the “Company”) as at December 31, 2016 and 2015, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as at December 31, 2016 and 2015, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers”.

### ***Basis for opinion***

We conducted our audits in accordance with the “Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants” and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Parent Company Only Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### ***Key audit matters***

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company’s parent company only financial statements of 2016. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

### **Evaluation of the ending balance of investments accounted for under the equity method**

Please refer to Notes 4(13) and 6(8) to the parent company only financial statements for the accounting policy and the details of investments accounted for under the equity method relating to this key audit matter.

Cayman President Holdings Ltd. and President Chain Store Corp., the Company's subsidiaries with related ending balance of investment accounted for under the equity method of \$45,610,374 thousand and \$11,697,426 thousand, respectively, constituting 37% of the Company's total assets collectively, and were considered significant to the parent company only financial statements. Accordingly, evaluation of the ending balances of these investments accounted for under the equity method has been identified one of the most significant matters in our audit, and hence the key audit matters reported in the financial statements of these subsidiaries are also included as key audit matters of in our audit of the Company's parent company only financial statements key audit matters from the abovementioned subsidiaries are summarized as follows:

1. Cayman President Holdings Ltd. and its subsidiaries—operating revenue—sales of goods in Mainland China

#### Description

The Cayman President Holdings Ltd. and its subsidiaries are engaged in large volume of revenue transactions generated from sales to a large number of customers, including direct customers and distributors in many different areas in Mainland China. For customers and distributors with farther distance or located in remote areas, it needs more time for good transportation and customer reception, which involves complicated judgements in determining the timing of transferring the rights and obligations and risks and awards of goods to customers. As a result, it has been identified as one of the key audit matters of our annual audit of 2016.

#### How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We understood, evaluated and validated management's controls in respect of the Group's sales transactions. In addition, we understood and tested the general control environment of the Group's information technology systems and the automatic controls that were related to sales of goods and revenue recognition.
- (2) We conducted testing of revenue recorded covering different locations and customers, using sampling techniques, by examining the relevant supporting documents including customer orders, goods delivery notes and customer's receipt notes. In addition, we confirmed customers'

balances and transactions on a sampling basis, by considering the amount, nature and characteristics of those customers.

- (3) We tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognised revenue with the goods delivery notes and customers' receipt notes, to assess whether revenue was recognised in the correct reporting periods.

## 2. President Chain Store Corp. and its subsidiaries—Completeness and accuracy of retail sales revenue

### Description

Retail sales revenue is recorded by point-of-sale (POS) terminals, which collect the information of item names of merchandise, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (which contains information such as item names of merchandise, cost of purchase, retail price, combination sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the Enterprise Resource Planning ("ERP") system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report, which summarizes amounts of sales and methods of collections (including cash, gift certificates, credit cards and electronic payment devices, etc.) and cash from daily sales is deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue figures, and has thus been identified as one of the key audit matter of our annual audit of 2016.

### How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We inspected and checked whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
- (2) We inspected and checked whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
- (3) We inspected and checked whether merchandise master file data had been periodically transferred to POS terminals in stores;
- (4) We inspected and checked whether sales information in POS terminals had been periodically and completely transferred to the ERP system and sales revenue journal entries were automatically generated;
- (5) We inspected manual sales revenue journal entries and relevant documents;

- (6) We inspected daily cash reports and relevant documents;
- (7) We inspected cash deposit amounts recorded in daily cash reports and agreed them to bank remittance amounts.

### 3. President Chain Store Corp. and its subsidiaries—Cost-to-retail ratio of retail inventory method

#### Description

As President Chain Store Corp. and its subsidiaries involves various kinds of merchandise, the retail inventory method is used to estimate the ending balance inventory and the cost of goods sold. The retail inventory method applies the ratio of costs over retail prices of goods purchased (known as cost-to-retail ratio) to come out with an estimate of the ending balance of inventory and the cost of goods sold. The determination of the cost-to-retail ratio highly on cost and retail price information recorded in the accounting system, and has thus been identified as one of the key audit matter of our annual audit of 2016.

#### How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

- (1) We interviewed the management to understand the calculation process of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
- (2) We inspected and checked whether additions and changes to the merchandise master file data (including item names of merchandise, cost of inventory, retail price, combination sales promotions, etc.) had been properly approved and the data had been correctly entered in the merchandise master file;
- (3) We inspected and checked whether costs and retail prices of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
- (4) We inspected and checked whether the POS records for costs and retail prices of inventory purchased were periodically and completely transferred to the ERP system and that the records could not be changed manually.
- (5) We recalculated the cost-to-retail ratio to verify its accuracy.

#### **Impairment loss on investments accounted for under equity method**

#### Description

Please refer to Notes 4(13), 4(17), and 6(8) to the parent company only financial statements for the accounting policy and the details of investments accounted for under the equity method and impairment

of non-financial assets relating to this key audit matter.

President Entertainment Corp., one of the subsidiaries of the Company with related ending balance of investment accounted for under the equity method of \$221,176 thousand as of December 31, 2016, was engaged in an investment and development plan in entertainment and leisurement business. Due to subsequent changes in environment protection laws and regulations, the investment and development plan was not able to continue as originally intended. Accordingly, President Entertainment Corp. recognized an impairment loss of \$1,661,499 thousand. As the objective evidences used as indications of impairment and the various comprehensive factors applied in determining the recoverable amounts of assets subject to impairment testing involve management's critical accounting judgement and assumption uncertainty, and has thus been identified as one of the key audit matters of our annual audit of 2016.

#### How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. We discussed with the management about this investment and development plan in entertainment and leisurement business, and evaluated their intentions and abilities to carry forward the plan by reviewing the business decisions made and performed by the management in the past.
2. We verified whether the objective evidences, evaluation processes and other factors used as indications of impairment by the management were consistently applied, and we also verified the reliability of the underlying documents.
3. We obtained the real estate appraisal report issued by an independent appraiser engaged by the management as part of our audit evidence and performed the following procedures:
  - (1) Evaluate independent appraiser's professional capacity, competence and objectivity.
  - (2) Examine the geographic areas and timing of the appraisal, verified the relevance with our audit.
  - (3) Evaluate the appropriateness of appraisal methods, relevance and reasonableness of significant assumptions applied in the appraisal report.

#### ***Other matter – The report of other independent accountants***

We did not audit the financial statements of certain investments accounted for under the equity method that are included in the parent company only financial statements. Those financial statements were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the parent company only

financial statements and the information disclosed in Note 13 relative to these investments, is based solely on the audit reports of other independent accountants. Total assets of these subsidiaries and investments amounted to \$6,821,574 thousand and \$7,760,542 thousand, representing 4.43% and 5.08% of the related totals, as of December 31, 2016 and 2015, respectively, and total operating revenues of \$944,108 thousand and \$1,077,213 thousand, constituting 9.95% and 9.08% of the related totals for the years then ended, respectively.

***Responsibilities of management and those charged with governance for the parent company only financial statements***

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the “Regulations Governing the Preparations of Financial Reports by Securities Issuers”, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company’s financial reporting process.

***Auditor’s responsibilities for the audit of the parent company only financial statements***

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**UNI-PRESIDENT ENTERPRISES CORP.**  
**NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015**  
 (Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

**1. HISTORY AND ORGANIZATION**

- (1) Uni-President Enterprises Corp. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) in August 1967. The Company is primarily engaged in the manufacture, processing and sales of various soft drinks, foods, animal feeds and flour.
- (2) The common shares of the Company have been listed on the Taiwan Stock Exchange since December 1987.

**2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION**

These parent company only financial statements were authorized for issuance by the Board of Directors on March 29, 2017.

**3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS**

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")  
None.
- (2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company  
New standards, interpretations and amendments as endorsed by the FSC effective from 2017 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (“IASB”)
Investment entities: applying the consolidation exception (amendments to IFRS 10, IFRS 12 and IAS 28)	January 1, 2016
Accounting for acquisition of interests in joint operations (amendments to IFRS 11)	January 1, 2016
IFRS 14, ‘Regulatory deferral accounts’	January 1, 2016
Disclosure initiative (amendments to IAS 1)	January 1, 2016
Clarification of acceptable methods of depreciation and amortisation (amendments to IAS 16 and IAS 38)	January 1, 2016
Agriculture: bearer plants (amendments to IAS 16 and IAS 41)	January 1, 2016
Defined benefit plans: employee contributions (amendments to IAS 19R)	July 1, 2014
Equity method in separate financial statements (amendments to IAS 27)	January 1, 2016
Recoverable amount disclosures for non-financial assets (amendments to IAS 36)	January 1, 2014
Novation of derivatives and continuation of hedge accounting (amendments to IAS 39)	January 1, 2014

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board ("IASB")
IFRIC 21, 'Levies'	January 1, 2014
Improvements to IFRSs 2010-2012	July 1, 2014
Improvements to IFRSs 2011-2013	July 1, 2014
Improvements to IFRSs 2012-2014	January 1, 2016

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and operating results based on the Group's assessment.

Amendments to IAS 36, 'Recoverable amount disclosures for non-financial assets'

The amendments remove the requirement to disclose recoverable amount when a cash generating unit ("CGU") contains goodwill or indefinite lived intangible assets but there has been no impairment. When a material impairment loss has been recognized or reversed for an individual asset, including goodwill, or a CGU, it is required to disclose the recoverable amount of the asset or CGU. If the recoverable amount is fair value less costs of disposal, it is required to disclose the level of the fair value hierarchy, the valuation techniques used and key assumptions.

Based on the Company's assessment, the amendments will result in additional disclosures for asset impairment.

### (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC effective from 2017 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Classification and measurement of share-based payment transactions (amendments to IFRS 2)	January 1, 2018
Applying IFRS 9, 'Financial instruments' with IFRS 4 'Insurance contracts' (amendments to IFRS 4)	January 1, 2018
IFRS 9, 'Financial instruments'	January 1, 2018
Sale or contribution of assets between an investor and its associate or joint venture (amendments to IFRS 10 and IAS 28)	To be determined by IASB
IFRS 15, 'Revenue from contracts with customers'	January 1, 2018
Clarifications to IFRS 15, 'Revenue from contracts with customers' (amendments to IFRS 15)	January 1, 2018
IFRS 16, 'Leases'	January 1, 2019
Disclosure initiative (amendments to IAS 7)	January 1, 2017
Recognition of deferred tax assets for unrealised losses (amendments to IAS 12)	January 1, 2017
Transfers of investment property (amendments to IAS 40)	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018

New Standards, Interpretations and Amendments	Effective date by IASB
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 1, 'First-time adoption of International Financial Reporting Standards'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 12, 'Disclosure of interests in other entities'	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS 28, 'Investments in associates and joint ventures'	January 1, 2018
Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and operating results based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.	
A. IFRS 9, 'Financial instruments'	
(a)Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortized cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.	
(b)The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognize 12-month expected credit losses ("ECL") or lifetime ECL (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount. The Company shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.	
B. IFRS 16, 'Leases'	
IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.	
C. Amendments to IAS 7, 'Disclosure initiative'	
This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.	
D. Amendments to IAS 40, 'Transfers of investment property'	
The amendment clarified that to transfer to, or from, investment properties there must be a change	

in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A change in management's intention, in isolation, does not provide evidence of the change in use. In addition, the amendments added examples for the evidence of a change in use. The examples include assets under construction or development (not completed properties) transfer from investment property to owner-occupied property at commencement of development with a view to owner-occupation and transfer from inventories to investment property at inception of an operating lease to another party.

E. Annual improvements to IFRSs 2014-2016 cycle

Amendments to IFRS 12, 'Disclosure of interests in other entities'

The amendments clarify that when an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) is classified as held for sale in accordance with IFRS 5, 'Non-current assets held for sale and discontinued operations', the disclosure requirements of IFRS 12 are applicable to interest in entities classified as held for sale except for summarized financial information for that subsidiary, joint venture or associate in accordance with paragraphs B10-B16.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

(2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Available-for-sale financial assets measured at fair value.
  - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the financial statements of each Company are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company's functional and presentation currency.

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise,
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- D. All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within “Other gains and losses”.

**(4) Classification of current and non-current items**

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a)Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
  - (b)Assets held mainly for trading purposes;
  - (c)Assets that are expected to be realized within twelve months from the balance sheet date;
  - (d)Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a)Liabilities that are expected to be paid off within the normal operating cycle;
  - (b)Liabilities arising mainly from trading activities;
  - (c)Liabilities that are to be paid off within twelve months from the balance sheet date;
  - (d)Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

**(5) Cash equivalents**

- A. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
- B. Time deposits and bills under repurchase agreement that meet the definition above and are held for the purpose of meting short-term cash commitment in operations are classified as cash equivalents.

**(6) Financial assets at fair value through profit or loss**

- A. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition. Financial assets are classified in this category if held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges. Financial assets that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
  - (a) Hybrid (combined) contracts; or
  - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
  - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. Financial assets at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in profit or loss.

**(7) Available-for-sale financial assets**

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.
- C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in “Financial assets carried at cost”.

**(8) Loans and receivables**

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

**(9) Impairment of financial assets**

- A. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

B. The criteria that the Company uses to determine whether there is objective evidence of an impairment loss is as follows:

- (a) Significant financial difficulty of the issuer or debtor;
- (b) The disappearance of an active market for that financial asset because of financial difficulties;
- (c) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
- (d) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
- (e) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

C. When the Company assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:

(a) Financial assets measured at amortized cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognized in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortized cost that would have been at the date of reversal had the impairment loss not been recognized previously. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(b) Financial assets carried at cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market return rate of similar financial asset, and is recognized in profit or loss. Impairment loss recognized for this category shall not be reversed subsequently. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(c) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, and is reclassified from "Other comprehensive income" to "Profit or loss". If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognized, then such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment

allowance account.

(10) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Lease (lessor)

- A. Based on the terms of a lease contract, a lease is classified as a finance lease if the lessee assumes substantially all the risks and rewards incidental to ownership of the leased asset.
- B. An operating lease is a lease other than a financial lease. Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Investments accounted for under the equity method / subsidiaries and associates

- A. A subsidiary is an entity where the Company has the right to dominate its finance and operating policies (including special purpose entities), normally the Company owns more than 50% of the voting rights directly or indirectly in that entity. Subsidiaries are accounted for under the equity method in the Company's parent company only financial statements.
- B. Unrealized gains or losses resulting from inter-company transactions with subsidiaries are eliminated. Necessary adjustments are made to the accounting policies of subsidiaries, to be consistent with the accounting policies of the Company.
- C. After acquisition of subsidiaries, the Company recognizes proportionately the share of profit and loss and other comprehensive income in the income statement as part of the Company's profit and loss and other comprehensive income, respectively. When the share of loss from a subsidiary exceeds the carrying amount of Company's interest in that subsidiary, the Company continues to recognize its share in the subsidiary's loss proportionately.
- D. As long as the shareholding alteration in the subsidiaries does not lead to forfeit of control, it is to be treated as equity transaction that is to be treated as transactions between the owners. The difference between non-controlling equity adjustment amount and the fair value of payment and receipt is to be recognized as equity.
- E. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- F. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is

recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

- G. When changes in an associate's equity are not recognized in profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- H. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- I. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then "Capital surplus" and "Investments accounted for under the equity method" shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- J. Upon loss of significant influence over an associate, the Company remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- K. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- L. When the Company disposes its investment in an associate, and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.
- M. According to "Regulations Governing the Preparation of Financial Statements by Securities Issuers", "Profit for the year" and "Other comprehensive income for the year" reported in an entity's parent company only statement of comprehensive income, shall equal to "profit for the year" and "Other comprehensive income" attributable to owners of the parent reported in that entity's consolidated statement of comprehensive income. Total equity reported in an entity's

parent company only financial statements, shall equal to equity attributable to owners of parent reported in that entity's consolidated financial statements.

(14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Asset	Useful lives
Buildings	2~55 years
Machinery and equipment	2~19 years
Transportation equipment	2~5 years
Utility equipment	1~11 years
Leasehold improvements	2~28 years
Other equipment	2~30 years

(15) Leased assets/ leases (lessee)

Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 15 to 55 years.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should

not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(18) Borrowings

- A. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.
- B. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

(19) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Financial liabilities at fair value through profit or loss

- A. Financial liabilities at fair value through profit or loss are financial liabilities held for trading or financial liabilities designated as at fair value through profit or loss on initial recognition. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
  - (a) Hybrid (combined) contracts; or
  - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
  - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. Financial liabilities at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognized in profit or loss.

(21) Derecognition of financial liabilities

Financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(22) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

**(23) Financial liabilities and equity instruments**

Ordinary corporate bonds issued by the Company are initially recognized at fair value, net of transaction costs incurred. Ordinary corporate bonds are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortized in profit or loss as an adjustment to the ‘finance costs’ over the period of bond circulation using the effective interest method.

**(24) Derivative financial instruments and hedging activities**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognized in profit or loss. Derivatives that are linked to unquoted equity instruments without reliably measured fair value and must be settled by delivery of such unquoted equity instruments are presented in “Financial assets or financial liabilities measured at cost”.

**(25) Employee benefits**

**A. Short-term employee benefits**

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

**B. Pensions**

**(a)Defined contribution plans**

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

**(b)Defined benefit plans**

i.Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.

ii.Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii.Past service costs are recognized immediately in profit or loss.

**C. Employees' compensation and directors' remuneration**

Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those

amounts can be reliably estimated.

(26) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends

are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(28) Revenue recognition

The Company manufactures and sells various soft drinks, food, animal feeds, sauces, vegetable oil, and medicine, etc. Revenue is measured at the fair value of the consideration received or receivable taking into account business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Company's activities. Revenue arising from the sales of goods is recognized when the Company has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The judgment and assumptions made by the Company in applying its accounting policies and concerning future events do not involve significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(16) Pensions

- A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 15% of the employees' monthly salaries and

wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March.

(c)The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. The composition of fair value of plan assets as of December 31, 2016 and 2015 is given in the Annual Labor Retirement Fund Utilization Report published by the government. Expected return on plan assets was a projection of overall return for the obligations period, which was estimated based on historical returns and by reference to the status of Labor Retirement Fund utilization by the Labor Pension Fund Supervisory Committee and taking into account the effect that the Fund's minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2016 and 2015 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the years ended December 31,	
	2016	2015
Discount rate	1. 25%	1. 50%
Future salary increases	2. 75%	2. 75%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience according to Taiwan Life Insurance Industry 5<sup>th</sup> Mortality Table for the years ended December 31, 2016 and 2015.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
<u>December 31, 2016</u>				
Effect on present value of defined benefit obligation	(\$ 260,448)	\$ 270,862	\$ 266,170	(\$ 257,333)

December 31, 2015

	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
Effect on present value of defined benefit obligation	(\$ 262,352)	\$ 273,091	\$ 269,034	(\$ 259,842)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analyzing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

(e) Expected contributions to the defined benefit pension plans of the Company within one year from December 31, 2017 are \$459,207.

(f) As of December 31, 2016, the weighted average duration of that retirement plan is 10 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$ 402,053
2~5 years	2,077,559
Over 6 years	9,645,280
	\$ 12,124,892

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plan of the Company for the years ended December 31, 2016 and 2015 were \$143,181 and \$135,289, respectively.

(17) Share capital

A. As of December 31, 2016, the Company's authorized capital was \$60,000,000, and the paid-in

capital was \$56,820,154, consisting of 5,682,015 thousand shares of ordinary stock, with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

- C. On June 26, 2015, the Company's shareholders adopted a resolution to issue shares of common stock due to capitalization of retained earnings of \$2,185,391 and obtained approval from the SFC. The effective date of capitalization was set on August 14, 2015.

(18) Capital reserves

- A. Pursuant to the Company Law, capital reserves arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital reserves should not be used to cover accumulated deficit unless the legal reserve is insufficient.
- B. Movements of the Company's capital reserves for the years ended December 31, 2016 and 2015 are as follows:

For the difference between proceeds and carrying amount from acquisition or disposal of subsidiaries, please refer to Note 6(34) of the Company and its subsidiaries' 2016 consolidated financial statements for the information on transactions with non-controlling interest.

#### (19) Retained earnings

- A. Pursuant to the amended Company Law, the current year's after-tax earnings should be used initially to cover any accumulated deficit; thereafter 10% of the remaining earnings should be set aside as legal reserve until the balance of legal reserve is equal to that of paid-in capital. The legal reserve shall be exclusively used to cover accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- B. Since the Company is in a changeable industry environment and the life cycle of the Company is in a stable growth, the appropriation of earnings should consider fund requirements and capital

budgets to decide how much earnings will be kept or distributed and how much cash dividends will be distributed. According to the Company's Articles of Incorporation, 10% of the annual net income, after offsetting any loss of prior years and paying all taxes and dues, shall be set aside as legal reserve. The remaining net income and the unappropriated retained earnings from prior years can be distributed in accordance with a resolution passed during a meeting of the Board of Directors and approved at the stockholders' meeting. Of the amount to be distributed by the Company, stockholders' bonuses shall comprise 50% to 100% of the unappropriated retained earnings, and the percentage of cash dividends shall not be less than 30% of dividends distributed.

- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings. The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. The Company proportionately recognized the reversal of special reserve of \$619 and \$1,701 for the years ended December 31, 2016 and 2015, respectively.
- D. The Company recognized dividends distributed to owners amounting to \$11,364,031 (\$2 (in dollars) per share as cash dividend) and \$9,834,258 (\$1.4 (in dollars) per share as cash dividend and \$0.4 (in dollars) per share as stock dividends) for the years ended in December 31, 2015 and 2014, respectively. On March 29, 2017, the Board of Directors during its meeting proposed for the distribution of cash dividends from 2016 earnings of \$11,932,232, constituting \$2 (in dollars) per share.
- E. In accordance with relevant laws and regulations of R.O.C., the investment accounted for under the equity method – President Securities Corp. has set aside a special reserve for trading losses and default losses from the annual post tax profit. The special reserve shall not be used for any other purpose except for covering the losses of President Securities Corp. or, when the special reserve reaches 50% of the amount of paid-in capital, 50% of the special reserve may be used for capitalization. As of December 31, 2016, the Company recognized special reserve of \$105,429 in accordance with IAS 28, "Investments in Associates and Joint Ventures".

(2) As of December 31, 2016, and 2015, the remaining balance due for construction in progress and prepayments for equipment was \$1,457,228, and \$2,018,452, respectively.

(3) The conditions of endorsement and guarantees provided by the Company to entities are described in Note 13(1)-B.

(4) In July 2000, President Chain Store Corp. signed a perpetual technical cooperation contract (the Contract) with Southland Corporation. The terms of the Contract are as follows:

- A. The Company guarantees that President Chain Store Corp. will fulfill all payments or other obligations due under the Contract to Southland Corporation.
- B. Without the written approval of Southland Corporation in advance, the Company may not sell, transfer, or pledge the ownership or the assets of President Chain Store Corp.
- C. The Company should maintain no less than 40% ownership of President Chain Store Corp.

(5) The Company entered into credit facilities agreements with the Bank of Tokyo-Mitsubishi in September 2014 and July 2015, respectively, and terms of agreements were from September 9, 2014 to September 7, 2018 and July 14, 2015 to July 14, 2020, respectively. Under the terms of the agreements, the Company agreed that:

- A. The current ratio computed from the year-end audited parent company only financial statements shall not be below 75%.
- B. The debt-to-equity ratio computed from the year-end audited parent company only financial statements shall not be above 150%.
- C. The interest coverage ratio computed from the year-end audited parent company only financial statements shall not be below 150%.

- D. The year-end audited consolidated tangible stockholders' equity shall not be less than \$30,000,000.
- (6) Due to the plasticizer food scandal, the Consumers' Foundation, Chinese Taipei (CFCT) filed a lawsuit against the Company with the Banciao District Court and claimed \$1,573,775 for punitive and damage penalty in March, 2012. The New Taipei District Court had rendered a judgment on this case on October 17, 2013, whereby the Company should pay \$88 to the plaintiff for damage penalty, The CFCT had filed an appeal with the Taiwan Highest Court. The Taiwan High Court had rendered a judgment on this case on August 24, 2016, whereby the Company should pay \$685 to the plaintiff for damage penalty. Under the law, if conviction is affirmed, the Company cannot file an appeal to the Supreme Court. However, CFCT has appealed with the Supreme Court in regard to the result of the second hearing. Thus, this case is waiting for the judgement of the Supreme Court.

**10. SIGNIFICANT DISASTER LOSS**

None.

**11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE:**

None.

**12. OTHERS**

**(1) Capital risk management**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders, maintain an optimal capital structure to both reduce the cost of capital and to meet the monetary needs of improving productivity. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

**(2) Financial instruments**

**A. Fair value information of financial instruments**

Except for items disclosed in the table below, the financial instruments not measured at fair value (including cash and cash equivalents, financial assets at fair value through profit or loss, notes receivable, accounts receivable (including related parties), other receivables (including related parties), guarantee deposits paid, long-term notes and accounts receivable, short-term borrowings, notes payable, accounts payable (including related parties), other payables (including related parties), corporate bonds payables, long-term borrowings, and guarantee deposits received are based on their book value as book value approximates to fair value. The fair value information of financial instruments measured at fair value is provided in Note 12 (3), Fair value estimation

**B. Financial risk management policies**

(a)The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial position and financial performance.

(b)Risk management is carried out by a central treasury department (Company treasury) under policies approved by the board of directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- (i) Because the Company is primarily operating in domestic markets, the foreign exchange risk from foreign different currency fluctuation is limited. The currency used for export trade is priced in US dollars. Any foreign exchange risk arises from the net investments in foreign operations.
- (ii) Some purchases and sales are valued in US dollars, therefore the fair value changes with market exchange rate. The Company holds equivalent assets and liabilities in foreign currencies, and the period of collection and payment is equivalent to offset the market risk, thus the risk is minimal; therefore, no major foreign exchange risk is expected.
- (iii) The net investments in foreign operations face risk arising from currency exchange rates. While these investments were strategically planned, the Company does not hedge against the risk incurred deliberately.
- (iv) The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2016			
	Foreign currency amount (in thousands)	Exchange rate	Book value
(foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 753	32. 20	\$ 24, 247
<u>Investment accounted for under equity method</u>			
USD : NTD	1, 536, 144	31. 46	48, 319, 861
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	300	32. 30	9, 680

December 31, 2015

	Foreign currency amount (in thousands)	Exchange rate	Book value
(foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 966	32.78	\$ 31,651
<u>Investment accounted for under equity method</u>			
USD : NTD	1,506,578	31.95	48,131,509
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	1,569	32.88	51,575

(v) Total exchange (loss) gain including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2016 and 2015 amounted to \$12,085 and (\$14,729), respectively.

(vi) The influence due to the fluctuations of the exchange rate between NTD and USD is primarily from cash and cash equivalents, accounts receivable, other receivables, financial assets accounted for under equity method, and borrowings denominated in USD. As of December 31, 2016 and 2015, if the NTD:USD exchange rate appreciates/depreciates by 1% with all other factors remaining constant, the Company's post-tax profit for the years ended December 31, 2016 and 2015 would increase/decrease by \$121 and \$165, respectively.

#### Price risk

The Company is exposed to equity securities price risk because of investments held by the Company and classified on the parent company only balance sheet either as available-for-sale or at fair value through profit or loss. The Company is not exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the Company has carefully determined its investing portfolio and has set various stop loss points to ensure that stockholders are not exposed to significant risks.

The Company's investments in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 2% with all other variables held constant, other components of equity for the years ended December 31, 2016 and 2015 would have increased/decreased by \$96 and \$1,006, respectively as a result of gains/losses on equity securities classified as available-for-sale.

#### Interest rate risk

The Company's interest rate risk arises from short-term borrowings, long-term borrowings and bonds payable. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. During the years ended December 31, 2016 and 2015, the Company's borrowings at variable rate were denominated in the NTD. If interest rates on borrowings had been 0.1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2016

and 2015 would have decreased/increased by \$23,581 and \$11,041, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

- (i) Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Company's credit policy, each local entity in the Company is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The utilization of credit limits is regularly monitored. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to wholesale and retail customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with good ratings are accepted.
- (ii) No credit limits were exceeded during the years ended December 31, 2016 and 2015, and management does not expect any significant losses from non-performance by these counterparties.
- (iii) For the credit ratings of the Company's financial assets, please refer to Note 6, "Financial assets".

(c) Liquidity risk

- (i) Cash flow forecasting is performed in Finance Division of the Company. Finance division monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.
- (ii) Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Company treasury. Company treasury invests surplus cash in interest bearing current accounts, time deposits, money market deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. For more information on the money market position held by the Company as of December 31, 2016, and 2015, please refer to Note(6).
- (iii) The table below analyzes the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity grouping based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

(3) Fair value estimation

- A. Details of the fair value of the Company's financial assets and financial liabilities not measured at fair value are provided in Note 12(2). Details of the fair value of the Company's investment property measured at cost are provided in Note 6(10).
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:  
Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a

market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market and investment property is included in Level 3.

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2016 and 2015 is as follows:

	<u>December 31, 2016</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

- D. The methods and assumptions the Company used to measure fair value are as follows:  
The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>	<u>Open-end fund</u>
Market quoted price	Closing Price	Net asset value
E. For the years ended December 31, 2016 and 2015, there was no transfer between Level 1 and Level 2.		
F. For the years ended December 31, 2016 and 2015, there was no transfer into or out from Level 3.		
G. Financial planning division is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented		

as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

- H. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

	Fair Value		Significant unobservable input	Relationship of inputs to fair value
	December 31, 2016	December 31, 2015	Valuation technique	
Non-derivative equity				
Beneficiary certificate	\$ 6,150	\$ 6,150	Net asset value	Not applicable Not applicable
