CONSOLIDATED FINANCIAL STATEMENTS AND

REPORT OF INDEPENDENT ACCOUNTANTS

DECEMBER 31, 2016 AND 2015

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

UNI-PRESIDENT ENTERPRISES CORP.

Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2016, pursuant to “Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises,” the entities that are required to be included in the consolidated financial statements of affiliates, are the same as the entities required to be included in the consolidated financial statements under International Financial Reporting Standards 10. In addition, information required to be disclosed in the consolidated financial statements of affiliates is included in the aforementioned consolidated financial statements. Accordingly, it is not required to prepare a separate set of consolidated financial statements of affiliates.

Hereby declare,

UNI-PRESIDENT ENTERPRISES CORP.

By

Alex Lo

Chairman

March 29, 2017.

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Uni-President Enterprises Corp.

Opinion

We have audited the accompanying consolidated balance sheets of Uni-President Enterprises Corp. and its subsidiaries (the “Group”) as at December 31, 2016 and 2015, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and reports of other independent accountants (Please refer to *Other Matter* section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2016 and 2015, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the “Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants” and generally accepted auditing standards in the Republic of China (“ROC GAAS”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. Based on our audits and reports from independent accountants, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group’s consolidated financial statements of the year 2016. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Operating revenue – Sales of goods in Mainland China

Description

Please refer to Notes 4(33) and 6(26) to the consolidated financial statements for the accounting policy of operating revenue and the details of revenue items relating to this key audit matter.

The Group is engaged in large volume of revenue transactions generated from sales to a large number of customers, including direct customers and distributors in many different areas in Mainland China. For customers and distributors with farther distance or located in remote areas, it needs more time for good transportation and customer reception, which involves complicated judgements in determining the timing of transferring the rights and obligations and risks and awards of goods to customers. As a result, it has been identified as one of the key audit matters of our annual audit of 2016.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. We understood, evaluated and validated management's controls in respect of the Group's sales transactions. In addition, we understood and tested the general control environment of the Group's information technology systems and the automatic controls that were related to sales of goods and revenue recognition.
2. We conducted testing of revenue recorded covering different locations and customers, using sampling techniques, by examining the relevant supporting documents including customer orders, goods delivery notes and customer's receipt notes. In addition, we confirmed customers' balances and transactions on a sampling basis, by considering the amount, nature and characteristics of those customers.
3. We tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognised revenue with the goods delivery notes and customers' receipt notes, to assess whether revenue was recognised in the correct reporting periods.

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(33) and 6(26) to the consolidated financial statements for the accounting policy of operating revenue and the details of revenue items relating to this key audit matter.

Retail sales revenue is recorded by point-of-sale (POS) terminals, which collect the information of item names of merchandise, quantity, sales price and total sales amount of each transaction using pre-

established merchandise master file data (which contains information such as item names of merchandise, cost of purchase, retail price, combination sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the Enterprise Resource Planning (“ERP”) system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report, which summarizes amounts of sales and methods of collections (including cash, gift certificates, credit cards and electronic payment devices, etc.) and cash from daily sales is deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue figures, and has thus been identified as one of the key audit matters of our annual audit of 2016.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. We inspected and checked whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
2. We inspected and checked whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
3. We inspected and checked whether merchandise master file data had been periodically transferred to POS terminals in stores;
4. We inspected and checked whether sales information in POS terminals had been periodically and completely transferred to the ERP system and sales revenue journal entries were automatically generated;
5. We inspected manual sales revenue journal entries and relevant documents;
6. We inspected daily cash reports and relevant documents;
7. We inspected cash deposit amounts recorded in daily cash reports and agreed them to bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(13) and 6(6) to the consolidated financial statements for the accounting policy of inventories and cost of goods sold and the details of inventory items relating to this key audit matter.

As retailing business involves various kinds of merchandise, the retail inventory method is used to estimate the ending balance of inventory and the cost of goods sold. The retail inventory method applies a ratio of costs over retail prices of goods purchased (known as cost-to-retail ratio) to come out with an estimate of the ending balance of inventory and the cost of goods sold. The determination of the cost-to-retail ratio relies highly on costs and retail prices information recorded in the accounting system, and has thus been identified as one of the key audit matters of our annual audit of 2016.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. We interviewed the management to understand the calculation process of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
2. We inspected and checked whether additions and changes to the merchandise master file data (including item names of merchandise, cost of inventory, retail price, combination sales promotions, etc.) had been properly approved and the data had been correctly entered in the merchandise master file;
3. We inspected and checked whether costs and retail prices of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
4. We inspected and checked whether the POS records for costs and retail prices of inventory purchased were periodically and completely transferred to the ERP system and that the records could not be changed manually.
5. We recalculated the cost-to-retail ratio to verify its accuracy.

Impairment loss on investment properties

Description

Please refer to Notes 4(19), 4(21), 6(13) and 6(15) to the consolidated financial statements for the accounting policy and the details of investment properties and impairment of non-financial assets relating to this key audit matter.

President Entertainment Corp., one of the subsidiaries of the Group, was engaged in an investment and development plan in entertainment and leisurement business. Due to subsequent changes in environment protection laws and regulations, the investment and development plan was not able to continue as originally intended. Accordingly, President Entertainment Corp. recognized an impairment loss of \$1,661,499 thousand. As the objective evidences used as indications of impairment and the various comprehensive factors applied in determining the recoverable amounts of assets subject to impairment testing involve management's critical accounting judgement and assumption uncertainty, and has thus been identified as one of the key audit matters of our annual audit of 2016.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. We discussed with the management about this investment and development plan in entertainment and leisurement business, and evaluated their intentions and abilities to carry forward the plan by reviewing the business decisions made and performed by the management in the past.
2. We verified whether the objective evidences, evaluation processes and other factors used as indications of impairment by the management were consistently applied, and we also verified the reliability of the underlying documents.
3. We obtained the real estate appraisal report issued by an independent appraiser engaged by the management as part of our audit evidence and performed the following procedures:
 - (1) Evaluate independent appraiser's professional capacity, competence and objectivity.
 - (2) Examine the geographic areas and timing of the appraisal, verified the relevance with our audit.
 - (3) Evaluate the appropriateness of appraisal methods, relevance and reasonableness of significant assumptions applied in the appraisal report.

Other matter –The report of other independent accountants

We did not audit the financial statements of certain consolidated subsidiaries and investments accounted for under the equity method that are included in the consolidated financial statements. Those financial statements were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the financial statements and the information disclosed in Note 13 relative to these investments, is based solely on the audit reports of other independent accountants. Total assets of these subsidiaries and investments amounted to \$21,114,131 thousand and \$21,023,978 thousand, representing 5.58% and 5.27% of the

related consolidated totals, as of December 31, 2016 and 2015, respectively, and total operating revenues of \$26,410,816 thousand and \$22,433,140 thousand, constituting 6.39% and 5.39% of the related consolidated totals for the years then ended, respectively. Investments in these companies' related share of profit of associates and joint ventures accounted for under the equity method amounted to \$1,081,320 thousand and \$1,136,234 thousand, constituting 6.68% and 6.52% of the consolidated total other comprehensive income for the years then ended, respectively.

Other matter – Parent company only financial reports

We have audited and expressed an unmodified opinion on the parent company only financial statements of Uni-President Enterprises Corp. as at and for the years ended December 31, 2016 and 2015.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee

that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

UNI-PRESIDENT ENTERPRISES CORP. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

- (1) Uni-President Enterprises Corp. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) in August 1967. The Company is primarily engaged in the manufacture, processing and sales of various soft drinks, food, animal feeds and flour. For more information regarding the manufacturing and trading activities the Company and its subsidiaries (the “Group”) are engaged in, please refer to Note 4(3).
- (2) The common shares of the Company have been listed on the Taiwan Stock Exchange since December 1987.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 29, 2017.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) as endorsed by the Financial Supervisory Commission (“FSC”)
None.
- (2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group
New standards, interpretations and amendments as endorsed by the FSC effective from 2017 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (“IASB”)
Investment entities: applying the consolidation exception (amendments to IFRS 10, IFRS 12 and IAS 28)	January 1, 2016
Accounting for acquisition of interests in joint operations (amendments to IFRS 11)	January 1, 2016
IFRS 14, ‘Regulatory deferral accounts’	January 1, 2016
Disclosure initiative (amendments to IAS 1)	January 1, 2016
Clarification of acceptable methods of depreciation and amortisation (amendments to IAS 16 and IAS 38)	January 1, 2016
Agriculture: bearer plants (amendments to IAS 16 and IAS 41)	January 1, 2016
Defined benefit plans: employee contributions (amendments to IAS 19R)	July 1, 2014

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (“IASB”)
Equity method in separate financial statements (amendments to IAS 27)	January 1, 2016
Recoverable amount disclosures for non-financial assets (amendments to IAS 36)	January 1, 2014
Novation of derivatives and continuation of hedge accounting (amendments to IAS 39)	January 1, 2014
IFRIC 21, ‘Levies’	January 1, 2014
Improvements to IFRSs 2010-2012	July 1, 2014
Improvements to IFRSs 2011-2013	July 1, 2014
Improvements to IFRSs 2012-2014	January 1, 2016

Except for the following, the above standards and interpretations have no significant impact to the Group’s financial condition and operating results based on the Group’s assessment.

A. Amendments to IAS 36, ‘Recoverable amount disclosures for non-financial assets’

The amendments remove the requirement to disclose recoverable amount when a cash generating unit (“CGU”) contains goodwill or indefinite lived intangible assets but there has been no impairment. When a material impairment loss has been recognized or reversed for an individual asset, including goodwill, or a CGU, it is required to disclose the recoverable amount of the asset or CGU. If the recoverable amount is fair value less costs of disposal, it is required to disclose the level of the fair value hierarchy, the valuation techniques used and key assumptions.

Based on the Group’s assessment, the amendments will result in additional disclosures for asset impairment.

B. Annual improvements to IFRSs 2010-2012 cycle

IFRS 8, ‘Operating segments’

The standard is amended to require disclosure of judgments made by management in aggregating operating segments. This amendment also clarifies that a reconciliation of the total of the reportable segments’ assets to the entity’s assets is required only when segment assets are provided to chief operating decision maker regularly.

Based on the Group’s assessment, the amendment will result in an additional disclosure of judgments made by management in aggregating operating segments and a deletion of reconciliation information of segments’ assets.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC effective from 2017 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Classification and measurement of share-based payment transactions (amendments to IFRS 2)	January 1, 2018
Applying IFRS 9, 'Financial instruments' with IFRS 4, 'Insurance contracts' (amendments to IFRS 4)	January 1, 2018
IFRS 9, 'Financial instruments'	January 1, 2018
Sale or contribution of assets between an investor and its associate or joint venture (amendments to IFRS 10 and IAS 28)	To be determined by IASB
IFRS 15, 'Revenue from contracts with customers'	January 1, 2018
Clarifications to IFRS 15, 'Revenue from contracts with customers' (amendments to IFRS 15)	January 1, 2018
IFRS 16, 'Leases'	January 1, 2019
Disclosure initiative (amendments to IAS 7)	January 1, 2017
Recognition of deferred tax assets for unrealised losses (amendments to IAS 12)	January 1, 2017
Transfers of investment property (amendments to IAS 40)	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 1, 'First-time adoption of International Financial Reporting Standards'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 12, 'Disclosure of interests in other entities'	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS 28, 'Investments in associates and joint ventures'	January 1, 2018

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and operating results based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

A. IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortized cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.
- (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has

objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Group shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.

B. IFRS 16, ‘Leases’

IFRS 16, ‘Leases’, replaces IAS 17, ‘Leases’ and related interpretations and SICs. The standard requires lessees to recognize a ‘right-of-use asset’ and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

C. Amendments to IAS 7, ‘Disclosure initiative’

This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

D. Amendments to IAS 40, ‘Transfers of investment property’

The amendments clarify that to transfer to, or from, investment properties there must be a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A change in management’s intentions, in isolation, does not provide evidence of the change in use. In addition, the amendments added examples for the evidence of a change in use. The examples include assets under construction or development (not completed properties) transfer from investment property to owner-occupied property at commencement of development with a view to owner-occupation and transfer from inventories to investment property at inception of an operating lease to another party.

E. Annual improvements to IFRSs 2014-2016 cycle

Amendments to IFRS 12, ‘Disclosure of interests in other entities’

The amendments clarify that when an entity’s interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) is classified as held for sale in accordance with IFRS 5, ‘Non-current assets held for sale and discontinued operations’, the disclosure requirements of IFRS 12 are applicable to interest in entities classified as held for sale except for summarised financial information for that subsidiary, joint venture or associate in accordance with paragraphs B10–B16.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (a)Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b)Available-for-sale financial assets measured at fair value.
 - (c)Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5, ‘Critical accounting judgements, estimates and key sources of assumption uncertainty’.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (a)All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b)Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c)Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
 - (d)Changes in a parent’s ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between

the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

- (e) When the Group loses control of a subsidiary, the Group measures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss, on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange

rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within “Other gains and losses”.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.
- (b) When a foreign operation as an associate or joint arrangement is partially disposed of or sold, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Group retains partial interest in the former foreign associate or joint arrangement after losing significant influence over the former foreign associate, or losing joint control of the former jointly controlled entity, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, if the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a)Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (b)Assets held mainly for trading purposes;
 - (c)Assets that are expected to be realized within twelve months from the balance sheet date;
 - (d)Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a)Liabilities that are expected to be paid off within the normal operating cycle;
 - (b)Liabilities arising mainly from trading activities;
 - (c)Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (d)Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

- A. Cash equivalents refer to short-term highly liquid investments that are readily convertible to known amount of cash and subject to an insignificant risk of changes in value.
- B. Time deposits, bills under repurchase agreements and commercial papers that meet the definition above and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition. Financial assets are classified in this category if held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges. Financial assets that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
 - (a)Hybrid (combined) contracts; or
 - (b)They eliminate or significantly reduce a measurement or recognition inconsistency; or
 - (c)They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.

C. Financial assets at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognized in profit or loss. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in ‘financial assets carried at cost’.

(8) Loans and receivables

A. Accounts receivable

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

B. Investments in debt instrument without active market

- (a) Investments in debt instrument without active market are loans and receivables not originated by the entity. They are bond investments with fixed or determinable payments that are not quoted in an active market, and also meet all of the following conditions:
 - i. Not designated on initial recognition as at fair value through profit or loss;
 - ii. Not designated on initial recognition as available-for-sale;
 - iii. Not for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration.
- (b) On a regular way purchase or sale basis, investments in debt instrument without active market are recognized and derecognized using trade date accounting.
- (c) Investments in debt instrument without active market are initially recognized at fair value on the trade date plus transaction costs and subsequently measured at amortized cost using the effective interest method, less provision for impairment. Amortization of a premium or a discount on such assets is recognized in profit or loss. Investments in bond reverse-repurchase in China with a short maturity period are measured at initial investment amount as the effect of discounting is immaterial.

(9) Available-for-sale financial assets

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognized and derecognized using trade date accounting.
- C. Available-for-sale financial assets are initially recognized at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair

value of these financial assets are recognized in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in ‘financial assets carried at cost’.

(10) Impairment of financial assets

- A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
 - (a) Significant financial difficulty of the issuer or debtor;
 - (b) The disappearance of an active market for that financial asset because of financial difficulties;
 - (c) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
 - (d) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered; or
 - (e) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
 - (a) Financial assets measured at amortized cost
The amount of the impairment loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the financial asset’s original effective interest rate, and is recognized in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortized cost that would have been at the date of reversal had the impairment loss not been recognized previously. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(b) Financial assets carried at cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market return rate of similar financial asset, and is recognized in profit or loss. Impairment loss recognized for this category shall not be reversed subsequently. Impairment loss is recognized by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(c) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortization) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognized, then such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognized in profit or loss shall not be reversed through profit or loss. Impairment loss is recognized and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(11) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from the financial asset have been transferred, and the Group has not retained control of the financial asset.

(12) Leases (lessor)

- A. Based on the terms of a lease contract, a lease is classified as a finance lease if the lessee assumes substantially all the risks and rewards incidental to ownership of the leased asset.
- B. An operating lease is a lease other than a finance lease. Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(13) Inventories

A. The Company

Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. Inventories are stated at the lower of cost and net realizable value. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses. When the cost of inventories exceeds the net realizable value, the amount of

any write-down of inventories is recognized as cost of sales during the period; and the amount of any reversal of inventory write-down is recognized as a reduction in cost of sales during the period.

B. Subsidiaries

Except for President Chain Store Corp. and subsidiaries, Philippine Seven Corporation, President Drugstore Business Corp. and Uni-President Oven Bakery Corp., which adopt the retail method and Tone Sang Construction Corp. which adopts construction accounting, the other subsidiaries adopt the same accounting principle for inventories as the Company.

(14) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell.

(15) Investments accounted for under the equity method - associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity are not recognized in profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in 'capital reserves' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.

- F. Upon loss of significant influence over an associate, the Group remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss or transferred directly to retained earnings, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it still retains significant influence over this associate, then the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- H. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it still retains significant influence over this associate, then the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

(16) Investment accounted for under the equity method - joint ventures

The Group accounts for its interest in a joint venture under the equity method. Unrealized profits and losses arising from the transactions between the Group and its joint venture are eliminated to the extent of the Group's interest in the joint venture. However, when the transaction provides evidence of a reduction in the net realizable value of current assets or an impairment loss, all such losses shall be recognized immediately. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.

(17) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Except for land, other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Asset	Useful lives		
Buildings	1	~	55 years
Machinery and utilities equipment	1	~	30 years
Transportation equipment	1	~	20 years
Leasehold improvements	2	~	28 years
Other equipment	1	~	55 years

(18) Leased assets/ leases (lessee)

- A. Based on the terms of a lease contract, a lease is classified as a finance lease if the Group assumes substantially all the risks and rewards incidental to ownership of the leased asset.
- B. An operating lease is a lease other than a finance lease. Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

(19) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 2 to 55 years.

(20) Intangible assets

A. Trademarks and licenses

Separately acquired trademarks and licenses are stated at historical cost. Trademarks and licenses acquired in a business combination are recognized at fair value at the acquisition date. Trademarks and licenses have a finite useful life and are amortized on a straight-line basis over their estimated useful lives of 10 to 30 years.

B. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 2 to 10 years.

C. Right of operation

Under IFRIC 12, “Service Concession Agreement,” the Group has entered into a contract with the government whereby the Group shall provide infrastructure for public transportation services. Based on the contract, the government grants the Group the right to operate and provide transportation services to the public. Such right is measured using the fair value of the infrastructure, recognized as an intangible asset, and amortized over the contract period of 50 years.

D. Other intangible assets are patents and technology transfer royalties, etc. and are amortized on a straight-line basis over its estimated useful life of 3 to 30 years.

(21) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment

loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(22) Borrowings

- A. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.
- B. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

(23) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. However, for short-term accounts payable without bearing interest, as the effect of discounting is insignificant, they are measured subsequently at original invoice amount.

(24) Financial liabilities at fair value through profit or loss

- A. Financial liabilities at fair value through profit or loss are financial liabilities held for trading or financial liabilities designated as at fair value through profit or loss on initial recognition. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
 - (a) Hybrid (combined) contracts; or
 - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
 - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. Financial liabilities at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognized in profit or loss.

(25) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(26) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when

there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(27) Financial liabilities and equity instruments

Ordinary corporate bonds issued by the Group are initially recognized at fair value, net of transaction costs incurred. Ordinary corporate bonds are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortized in profit or loss as an adjustment to the ‘finance costs’ over the period of bond circulation using the effective interest method.

(28) Derivative financial instruments

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognized in profit or loss.

(29) Provisions

Provisions (including decommissioning) are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense.

(30) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The

rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.

- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employees' compensation is distributed by shares, the Group calculates the number of shares based on the closing market price at the previous day of the board meeting resolution.

(31) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an

intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

- F. A deferred tax asset shall be recognized for unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures, employees' training costs and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(32) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(33) Revenue recognition

A. Sales of goods

(a) The Group manufactures and sells various soft drinks, food, animal feeds, sauces, vegetable oil, and medicines, etc. Revenue is measured at the fair value of the consideration received or receivable taking into account business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods is recognized when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

(b) The Group offers customers volume discounts and right of return for defective products. The Group estimates such discounts and returns based on historical experience. Provisions for such liabilities are recorded when the sales are recognized. The volume discounts are estimated based on the anticipated annual sales quantities.

(c) The Group has customer loyalty programmes where the Group grants loyalty award credits (such as 'points'; the award credits can be used to exchange for free or discounted goods) to customers as part of a sales transaction. The fair value of the consideration received or receivable in respect of the initial sale shall be allocated between the initial sale of goods and the award credits. The amount of proceeds allocated to the award credits is measured by reference to the fair value of goods that can be redeemed by using the award credits and the proportion of award credits that are expected to be redeemed by customers. The Group recognizes the deferred portion of the proceeds allocated to the award credits as revenue only when it has fulfilled its obligations in respect of the award credits.

B. Sales of services

The Group provides services such as the operation of public transportation station, processing of packaging materials, establishing information system and management consulting, etc. Revenue from rendering services is recognized under the percentage-of-completion method when the outcome of services provided can be estimated reliably. The stage of completion of a service contract is measured by the percentage of the actual services performed as of the financial reporting date to the total services to be performed by surveys of work performed. If the outcome of a service contract cannot be estimated reliably, contract revenue should be recognized only to the extent that contract costs incurred are likely to be recoverable.

C. A sale agreement comprising of multiple components

A sale agreement offered by the Group might comprise of multiple components, including sale of goods and subsequent repair services, etc. If a sale agreement comprises of multiple identifiable components, the fair value of the consideration received or receivable in respect of the sale agreement shall be allocated between those components based on the relative fair value of each component. The amount of proceeds allocated to each component is recognized as revenue in profit or loss following the revenue recognition criteria applied to each component. The fair value of each component is determined by its market value when it is sold separately.

(34) Service concession arrangements

- A. The Group contracted with the government (grantor) a service concession arrangement whereby the Group shall provide construction of the government's infrastructure assets for public services and operate those assets during the term of the arrangement. When the term of the operating period expires, the underlying infrastructure assets will be transferred to the government without consideration. The Group allocates the fair value of the consideration received or receivable in respect of the service concession arrangement between construction services and operating services provided based on their relative fair values, and recognizes such allocated amounts as revenues in accordance with IAS 11, 'Construction Contracts', and IAS 18, 'Revenue', respectively.
- B. Costs incurred on provision of construction services or upgrading services under a service concession arrangement are accounted for in accordance with IAS 11, 'Construction Contracts'.
- C. The consideration received or receivable from the grantor in respect of the service concession arrangement is recognized at its fair value. Such considerations are recognized as a financial asset or an intangible asset based on how the considerations from the grantor to the operator are made as specified in the arrangement. The Group recognizes a financial asset to the extent that it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction services, and recognizes an intangible asset to the extent that it receives a right (a license) to charge users of the public service.

(35) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(36) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chairman that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

Impairment assessment of investment property

The Group assesses impairment based on its subjective judgement and determines the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on how assets are utilised and industrial characteristics. Any changes of economic circumstances or estimates due to the change of Group strategy might cause material impairment on assets in the future.

As of December 31, 2016, the Group recognised investment property, net of impairment loss, amounting to \$17,802,717.

(c)The disposal group is stated at the lower of carrying amount and fair value less costs to sell, and there is no indication of any impairment.

(d)The abovementioned transaction was settled in January 2017.

B. On August 8, 2016, the Group entered into a share transfer agreement with a third-party buyer and agreed to sell all the shares of its subsidiary, Ever-Splendor Electrics (Shenzhen) Co., Ltd., and reclassified related assets and liabilities as non-current assets held for sale. The transaction was settled in November 2016. For more information, please refer to Note 4(3) B, ‘Subsidiaries included in the consolidated financial statements’.

C. The Group has been approved by the board of directors to sell all the shares of its associate, Jinmailang Beverage Co., Ltd. in May 2016, and the corresponding investment accounted for under the equity method had been reclassified as non-current assets held for sale.

The aforementioned transaction was completed in September 2016, the proceeds of disposal of \$6,256,466 had been collected and the related gain on disposal of \$1,528,552 was recognized (listed as “other gains and losses”).

D. The Group entered into a land expropriation and compensation on plan facilities decommissioning agreement (the ‘Compensation Agreement’) with the Xindu District Government of Chengdu City on December 3, 2014, whereby both parties agreed that the decommissioning of plant facilities

and building should be completed and the title of the land should be transferred within 120 days after the effective date of the agreement. Assets and liabilities that are included in the scope of the Compensation Agreement were classified as non-current assets held for sale.

The aforementioned disposal group classified as held for sale had been disposed of in February 2015 and the related gain on disposal of \$452,780 was recognized (listed as “other gains and losses”).

	<u>\$ 2,882,485</u>	<u>\$ 2,769,432</u>

- A. The Group classified some of its equity investments as available-for-sale financial assets, based on its intention. However, as these stocks are not traded in active market, and there is no sufficient information of similar companies in the same industry, fair value of the investments cannot be

measured reliably. Accordingly, the Group classified those stocks as ‘financial assets carried at cost’.

- B. Some of the Group’s investments in equity instruments had experienced prolonged decline in the fair value and the carrying amounts of investments were deemed not likely to be recovered. As a result, the Group recognized impairment losses of \$250,236 (listed as “Other gains and losses”) for the year ended December 31, 2016. There was no such case for the year ended December 31, 2015.
- C. During the years ended December 31, 2016 and 2015, some of the Group’s investments accounted as financial assets carried at cost had completed their initial public offering (IPO) process and became listed in the TSE (or OTC) market. The carrying amount of these investments of \$104,031 and \$ 4,082 was reclassified as ‘available-for-sale financial assets - non-current’ for the years ended December 31, 2015 and 2016, respectively.
- D. For more information on financial assets carried at cost pledged to others as of December 31, 2016 and 2015, please refer to Note 8, ‘Pledged assets’.

D. For the years ended December 31, 2016 and 2015, the share of profit of associates and joint ventures under the equity method was \$4,847,214 and \$4,451,909, respectively.

E. During the year ended December 31, 2015, the Group partially disposed its shares of the investment accounted for under the equity method, Eagle Cold Storage Enterprises Co., Ltd., through public market. It was determined that the Group has lost significant influence over the associate due to the decrease in the percentage of ownership. Based on its intention, residual interest of \$553,980 was reclassified as 'available-for-sale financial assets - non-current'.

F. During the year ended December 31, 2015, the investments accounted for under the equity method, Outlook Investment Pte Ltd., etc. issued new shares and the Group did not subscribe or acquire new shares proportionately. It was determined that the Group has lost significant influence over these associates due to the decrease in the percentage of ownership. Based on its intention, residual interest of \$519,828 was reclassified as available-for-sale investment. However, as the stocks of these investments are not traded in active markets, fair value of these investments cannot be measured reliably. Accordingly, the Group classified them as 'financial assets carried at cost - non-current'.

(21) Pensions

A. The Company and domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and domestic subsidiaries contribute monthly an amount equal to 2%~15% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31 every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Group will make contribution for the deficit by end of March next year.

- (c) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2016 and 2015 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (d) The principal actuarial assumptions used were as follows:

	For the years ended December 31,	
	2016	2015
Discount rate	1. 25%~5. 41%	1. 25%~5. 14%
Future salary increases	1%~5. 5%	1%~4%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase	Decrease	Increase	Decrease
	0.25%~1%	0.25%~1%	0.25%~1%	0.25%~1%
<u>December 31, 2016</u>				
Effect on present value of defined benefit obligation	(\$ 591,790)	\$ 617,703	\$ 606,886	(\$ 483,395)
<u>December 31, 2015</u>				
Effect on present value of defined benefit obligation	(\$ 596,854)	\$ 607,427	\$ 621,523	(\$ 593,335)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- (e) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2017 are \$768,576.
- (f) As of December 31, 2016, the weighted average duration of that retirement plan is 8~23 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$ 607,317
2-5 years	3,542,069
Over 6 years	24,571,994
	\$ 28,721,380

- B. Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labour Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labour Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The Company's subsidiaries in mainland China are subject to the government

sponsored defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a fixed percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations. The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2016 and 2015 were \$2,977,433 and \$3,060,841, respectively.

(22) Share capital

- A. As of December 31, 2016, the Company's authorized capital was \$60,000,000, and the paid-in capital was \$56,820,154, consisting of 5,682,015 thousand shares of ordinary stock, with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.
- B. Movements in the number of the Company's ordinary shares outstanding are as follows (unit: thousand shares):

	For the years ended December 31,	
	2016	2015
Balance as at January 1	5,682,015	5,463,476
Issuance of shares through capitalisation of retained earnings	-	218,539
Balance as at December 31	<u>5,682,015</u>	<u>5,682,015</u>

- C. On June 26, 2015, the Company's shareholders adopted a resolution to issue shares of common stock due to capitalization of retained earnings of \$2,185,391 and obtained approval from the SFC. The effective date of capitalization was set on August 14, 2015.

(23) Capital reserves

- A. Pursuant to the R.O.C. Company Law, capital reserves arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital reserves should not be used to cover accumulated deficit unless the legal reserve is insufficient.
- B. Movements of the Company's capital reserves for the years ended December 31, 2016 and 2015 are as follows:

	Share premium	Difference between the acquisition or disposal price and carrying amount of subsidiaries	Share of change in net equity of associates and joint accounted for under the method	Others	Total

For more information regarding changes in difference between the acquisition or disposal price and carrying amount of subsidiaries, please refer to Note 6(34), ‘Transactions with non-controlling interest’.

(24) Retained earnings

- A. Pursuant to the amended R.O.C. Company Law, the current year's after-tax earnings should be used initially to cover any accumulated deficit; thereafter 10% of the remaining earnings should be set aside as legal reserve until the balance of legal reserve is equal to that of paid-in capital. The legal reserve shall be exclusively used to cover accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- B. Since the Company is in a changeable industry environment and the life cycle of the Company is in a stable growth, the appropriation of earnings should consider fund requirements and capital budgets to decide how much earnings will be kept or distributed and how much cash dividends will be distributed. According to the Company's Articles of Incorporation, 10% of the annual net

income, after offsetting any loss of prior years and paying all taxes and dues, shall be set aside as legal reserve. The remaining net income and the unappropriated retained earnings from prior years can be distributed in accordance with a resolution passed during a meeting of the Board of Directors and approved at the stockholders' meeting. Of the amount to be distributed by the Company, stockholders' bonuses shall comprise 50% to 100% of the unappropriated retained earnings, and the percentage of cash dividends shall not be less than 30% of dividends distributed.

- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings. The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. The Company reversed proportionately the special reserve previously set aside, due to use or disposal of relevant assets. When the aforementioned assets are classified as investment properties, the reversal of land will take place upon disposal or reclassification while properties, other than land, are to be reversed through the operating period. The Company reversed proportionately the special reserve previously set aside, due to use or disposal of relevant assets, amounting to \$619 and \$1,701 for the years ended December 31, 2016 and 2015, respectively.
- D. The Company recognized dividends distributed to owners amounting to \$11,364,031 (\$2 (in dollars) per share as cash dividend) and \$9,834,258 (\$1.4 (in dollars) per share as cash dividend and \$0.4 (in dollars) per share as stock dividends) for the years ended in December 31, 2015 and 2014, respectively. On March 29, 2017, the Board of Directors during its meeting proposed for the distribution of cash dividends from 2016 earnings of \$11,932,232 (\$2 (in dollars) per share).
- E. In accordance with relevant laws and regulations of R.O.C., the long-term equity investment accounted for using equity method – President Securities Corp. has set aside a special reserve for trading losses and default losses from the annual post tax profit. The special reserve shall not be used for any other purpose except for covering the losses of President Securities Corp. or, when the special reserve reaches 50% of the amount of paid-in capital, 50% of the special reserve may be used for capitalization. As of December 31, 2016, the Group recognized special reserve of \$105,429 in accordance with IAS 28, "Investments in Associates and Joint Ventures".

- A. A ratio of profit of the current year distributable, after covering accumulated losses, shall be distributed as employees' compensation and directors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 2% for directors' remuneration.
- B. For the years ended December 31, 2016 and 2015, employees' compensation was accrued at \$1,274,417 and \$1,219,007, respectively, while directors' remuneration was accrued at \$250,841 and \$246,768, respectively. The aforementioned amounts were recognized in salary expenses. The expenses recognized for the year were accrued based on the earnings of current year and the percentage specified in the Articles of Incorporation of the Company. The employees' compensation and directors' and supervisors' remuneration resolved by the Board of Directors were \$1,274,417 and \$250,841, respectively, and the employees' compensation will be distributed in the form of cash. The employees' compensation and directors' remuneration for 2015 was \$1,467,509 as resolved by the board of directors, which was different from the estimated amount of \$1,465,775 recognized in the 2015 financial statements by \$1,734. Such difference was recognized in profit or loss for the year ended December 31, 2016. Information about the appropriation of employees' compensation and directors' remuneration by the Company as proposed by the Board of Directors and resolved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

G. The Group estimates taxable temporary differences arising from gains on investment in overseas subsidiaries in accordance with tax regulations and IAS 12. As the Group has the ability to control the timing of the reversal of such temporary differences, and considering the overall operating arrangement, resource allocation and capital reinvestment, the Group believes that such temporary

differences will possibly not realize in the foreseeable future. As a result, it is permissible under IAS 12 that the Group does not recognise related deferred tax arising from taxable temporary differences. As of December 31, 2016 and 2015, the related unrecognised temporary differences were \$54,654,359 and \$52,308,881, respectively, and unrecognised deferred tax liabilities were \$6,948,254 and \$6,458,491, respectively.

H. The Company's income tax returns through 2014 have been assessed and approved by the Tax Authority and there were no disputes existing between the Company and the Authority as of March 29, 2017.

D. The year-end audited consolidated tangible stockholders' equity shall not be less than \$30,000,000.

(6) Due to the plasticizer food scandal, the Consumers' Foundation, Chinese Taipei (CFCT) filed a lawsuit against the Company with the Banciao District Court and claimed \$1,573,775 for punitive damages. The New Taipei District Court rendered its judgment on this case on October 17, 2013, whereby the Company is ordered to pay \$88 to the plaintiff for damage penalty. The Taiwan High Court rendered its judgment on this case on August 24, 2016 in the second instance, whereby the Company is ordered to pay \$685 to the plaintiff for non-property damages and punitive damage. As a final judgment had been given, the Company cannot file an appeal to a court in third instance. The CFCT has filed an appeal with the Supreme Court.

(7) Uni-President Development Corp. signed a "Build-Operate-Transfer Contract for the Construction, Development and Operation of a Mass Rapid Transit (MRT) Station" with the Taipei City Government in August 2004. The main contents of the contract are as follows:

A. The contract includes the construction, development and operation of an MRT Station including all auxiliary structures and facilities.

B. The Taipei City Government shall provide the right of use for the land located in Shin-Yi District Lot No. 3 to carry out the contract.

C. The development and operation period is 50 years starting from the time the right of land is registered (date registered - October 15, 2004). On December 31, 2007, the Taipei City Government agreed that the period shall be extended (for a total of 484 days) due to processing of building capacity compensation and changes in design.

D. Uni-President Development Corp. shall pay two kinds of royalty fees:

(a) Royalty fees for development

Total amount is \$2,500,000 and as of December 31, 2016, Uni-President Development Corp.

has paid \$2,000,000. The remainder will be paid in accordance with the terms of the contract.

(b) Royalty fees for operations

Uni-President Development Corp. shall pay operation royalty fees to the Taipei City Government using the progressive increase method one year after the start of commercial operations.

E. Uni-President Development Corp. shall pay the rent to the Taipei City Government based on a fixed percentage of the proclamation land value one year after the start of commercial operations.

F. Uni-President Development Corp. shall transfer freely the operating right for the MRT Station to the Taipei City Government when the contract expires. Uni-President Development Corp. also agrees to enter into a new contract with the Taipei City Government to bring the MRT Station back into public ownership 5 years before the end of the contract. The new contract shall be finished within 6 months. In addition, Uni-President Development Corp. shall propose a detailed plan before entering into a new contract with regard to the rights and responsibilities of the transfer of the MRT Station. Uni-President Development Corp. has obtained the license described above.

(8) The subsidiary, Ton Yi Industrial Corp., has entered into a loan agreement with KGI bank in 2016. Based on the agreement, Ton Yi Industrial Corp. is required to meet certain consolidated financial ratios as follows: debt-to-equity ratio [(Total liability less cash and cash equivalents) / consolidated tangible shareholders' equity] of 180% or less, interest coverage ratio of over 200%, and consolidated tangible stockholders' equity of not less than \$15,000,000. Under the terms of the loan agreement, if any of the financial ratios or regulations above had been violated, Ton Yi Industrial Corp. shall improve it within four months after the issuance of financial reports. Otherwise, the banks have the right to demand Ton Yi Industrial Corp. to pay off the loan balance immediately.

(9) The subsidiary, Ton Yi Industrial Corp. has signed a syndicated loan agreement with Taiwan Bank in 2015. Based on the agreement, Ton Yi Industrial Corp. is required to meet certain consolidated financial ratios as follows: debt-to-equity ratio [(Total liability less cash and cash equivalents) / consolidated tangible shareholders' equity] of 180% or less, interest coverage ratio of over 200%, and consolidated tangible stockholders' equity of not less than \$15,000,000. Under the terms of the loan agreement, if any of the financial ratios or regulations above is violated, Ton Yi Industrial Corp. shall improve it within three months after the issuance of financial reports. Should Ton Yi Industrial Corp. meet the required financial ratios and regulations by then, it will not be considered as a violation of the agreement. The credit rate will be overcharged by 0.1% of annual floating rate from the day after the issuance of the financial report which violates the financial ratios or regulations above to the day before Ton Yi Industrial Corp. meet the required financial ratios. Otherwise, the banks have the right to demand Ton Yi Industrial Corp. to pay off the loan balance immediately.

(10) The subsidiary, Ton Yi Industrial Corp., has entered into a loan agreement with The Bank of Tokyo-Mitsubishi UFJ Ltd. in 2015. Based on the agreement, Ton Yi Industrial Corp. is required to meet certain consolidated financial ratios as follows: debt-to-equity ratio (Total liability / consolidated tangible shareholders' equity) of 180% or less, interest coverage ratio of over 200%, and consolidated tangible stockholders' equity of not less than \$15,000,000. Otherwise, the banks have the right to demand Ton Yi Industrial Corp. to pay off the loan balance immediately.

10. SIGNIFICANT DISASTER LOSS: None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE: None.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders, maintain an optimal capital structure to both reduce the cost of capital and to meet the monetary needs of improving productivity. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Fair value information of financial instruments

(a) The carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable, other receivables, guarantee deposits paid, short-term borrowings, short-term notes and bills payable, notes payable, accounts payable, other payables, corporate bonds payable, long-term borrowings and guarantee deposits received) are approximate to their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(3) Fair value estimation.

(b) The methods and assumptions of fair value measurement are as follows:

Investments in debt instruments without active market: If recent transaction prices or market maker quotes are available, the fair value is based on such information. If there is no quoted market price available, the fair value is determined by using valuation techniques and calculated as the present value of the estimated cash flows.

B. Financial risk management policies

(a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial position and financial performance.

(b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the board of directors. Group treasury identifies, evaluates and hedges

financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C.Significant financial risks and degrees of financial risks

(a)Market risk

Foreign exchange risk

- (i)The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and JPY. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.
- (ii)Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The group companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. To manage their foreign exchange risk arising from future commercial transactions and recognized assets and liabilities, entities in the Group use forward foreign exchange contracts. However, hedge accounting is not applied as transactions did not meet all criteria of hedge accounting.
- (iii)The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.
- (iv)The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, CYN and HKD. The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2016		
	Foreign currency amount (in thousands)	Exchange rate (Note 1)	Book value (Note 2)
(foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>

USD : CNY	16,620	6.95	535,995
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	16,354	32.25	527,417
USD : CNY	26,829	6.95	865,235

<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	9,197	32.87	302,305
USD : CNY	224,525	6.35	7,380,137
CNY : USD	142,035	0.16	735,335

(Note 1) Foreign currency vs. Functional currency.

(Note 2) Foreign currencies translated to New Taiwan Dollars using year-end exchange rate.

(v) Total exchange loss, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2016 and 2015 amounted to \$67,073 and \$733,630, respectively.

(vi) Foreign exchange risk with respect to USD arises from the exchange gain or loss resulting from foreign currency translation of cash and cash equivalents, accounts receivable, other receivables, borrowings, accounts payable and other payables denominated in USD. As of December 31, 2016 and 2015, if the NTD:USD exchange rate appreciates/depreciates

by 5% with all other factors remaining constant, the Group's post-tax profit for the years ended December 31, 2016 and 2015 would increase/decrease by \$87,730 and \$83,261, respectively. Foreign exchange risk with respect to USD:CNY primarily arises from the exchange gain or loss resulting from foreign currency translation of cash and cash equivalents, accounts receivable, accounts payable and borrowings denominated in USD. If the USD:CNY exchange rate appreciates/depreciates by 5%, with all other factors remaining constant, the Group's post-tax profit for the years ended December 31, 2016 and 2015 would increase/decrease by \$16,462 and \$157,834, respectively.

Price risk

The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet either as available-for-sale or at fair value through profit or loss. The Group is not exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the Group has carefully determined its investing portfolio and has set various stop loss points to ensure that stockholders are not exposed to significant risks.

The sensitivity analysis for equity securities price risk is calculated on the basis of fair value at balance sheet date. If the prices of these equity securities had increased/decreased by 2% with all other variables held constant, post-tax profit for the years ended December 31, 2016 and 2015 would have increased/decreased by \$744 and \$1,208 as a result of gains/losses on equity securities classified as at fair value through profit or loss, respectively. Other components of equity would have increased/decreased by \$72,260 and \$74,224 as a result of gains/losses on equity securities classified as available-for-sale, respectively.

Interest rate risk

The Group's interest rate risk arises from short-term borrowings, long-term borrowings and bonds payable. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rate. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During the years ended December 31, 2016 and 2015, the Group's borrowings at variable rate were denominated in NTD, USD and CNY. During the years ended December 31, 2016 and 2015, if interest rates on borrowings had been 0.1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2016 and 2015 would have decreased/increased by \$44,223 and \$43,773, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

(i) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery

terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The utilisation of credit limits is regularly monitored. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to wholesale and retail customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with good ratings are accepted.

- (ii) During the years ended December 31, 2016 and 2015, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.
- (iii) For the credit ratings of the Group's financial assets, please refer to Note 6, 'Financial assets'.

(c) Liquidity risk

- (i) Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.
- (ii) Surplus cash held by the Group treasury over and above the balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, time deposits, money market deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the above mentioned forecasts. As of December 31, 2016 and 2015, the position of money market held by the Group can be found in Note 6, 'Financial assets'.
- (iii) The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

(3) Fair value estimation

- A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12(2). Details of the fair value of the Company's investment property measured at cost are provided in Note 6(13).
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates, on-the-run Taiwan central government bonds and derivative instruments with quoted market prices is included in Level 1.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in forward exchange is included in Level 2.
 - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in certain derivative instruments and equity investment without active market is included in Level 3.
- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2016 and 2015 is as follows:

	December 31, 2016	Level 1	Level 2	Level 3	Total

D. The methods and assumptions the Group used to measure fair value are as follows:

- (a) The instruments that the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares	Open-end fund	Government bond	Convertible bond
Market quoted price	Closing price	Net asset value	Closing price	Closing price

- (b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
- (c) When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments

are normally observable in the market.

- (d) Forward exchange contracts are usually valued based on the current forward exchange rate.
- (e) The market approach is used by the Group to measure its assets held for disposal (Price-to-Sales Ratio, P/S ratio), which is calculated as the ratio of recent identical or similar transaction price to sales as an observable input to project the fair value of the disposal group.
- (f) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- (g) The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.

E. For the years ended December 31, 2016 and 2015, there was no transfer between Level 1 and Level 2.

F. The following chart is the movement of level 3 for the years ended December 31, 2016 and 2015:

G. Financial planning division is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value		Significant unobservable input		Range (weighted average)		Relationship of inputs to fair value
	December 31, 2016	December 31, 2015	Valuation technique	December 31, 2016	December 31, 2015		
Non-derivative equity instrument:							
Unlisted shares	\$ 1,384,433	\$ 1,463,135	Market comparable companies	Price to book ratio multiplier, enterprise value to EBITA multiplier, etc.	3. 92~4. 34	3. 12~3. 44	The higher the multiplier, the higher the fair value
			Discounted cash flow	Long-term revenue growth rate	4. 5%~5. 5%	4. 5%~5. 5%	The higher the long-term revenue growth rate, the higher the fair value
			Discount rate		12. 6%~15. 4%	12. 6%~15. 4%	The higher the discount rate, the lower the fair value
			Net asset value	Not applicable			Not applicable
Beneficiary certificates	4,354,860	4,548,831	Net asset value	Not applicable			Not applicable
Privately placed securities	676,135	1,535,777	Net asset value	Not applicable			Not applicable

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in different measurement. The following is the effect on profit or loss or on other comprehensive income of financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

For the years ended December 31,						
	2016			2015		
	Input	Change	Recognised in other comprehensive income	Recognised in other comprehensive income	Favourable change	Unfavourable change
Financial assets						
Equity instrument	Price to earnings ratio multiplier, enterprise value to multiplier, etc.	±5%	\$ 29,432 (\$ 29,432)	\$ 37,175 (\$ 21,472)		
Equity instrument	Long-term revenue growth rate	±10%	\$ 8,777 (\$ 8,929)	\$ 6,603 (\$ 6,690)		
Equity instrument	Discount rate	±10%	\$ 44,394 (\$ 57,359)	\$ 48,084 (\$ 62,378)
